Yes(x) No()

(b) has been subject to such filing requirements for the past ninety (90) days Yes ( x ) No ( )

The aggregate market value of the voting stock held by non-affiliates of the company based on the latest traded price of the Company's Common stock on the Philippine Stock Exchange on March 26, 2025 is Php 702,470,564.40

532,174,670 shares x 1.32 = Php 702,470,564.40

#### PART 1 - BUSINESS AND GENERAL INFORMATION

#### Item 1. Business

#### A. Background Information

#### 1. Brief Company History

Primex Corporation was incorporated under the laws of the Republic of the Philippines and registered with the Securities and Exchange Commission on July 17, 1986 with the primary purpose of engaging in real estate development.

#### 2. Listing in Stock Exchange

The shares of stock of Primex Corporation was listed at the Philippine Stock Exchange on August 10, 2001. The company has an authorized capital stock of Four Billion Five Hundred Million pesos (Php 4,500,000,000), divided into Three Billion Five hundred million (3,500,000,000) common shares with a par value of Php 0.20 per share and One Billion (1,000,000,000) preferred shares with a par value of Php 0.20 per share. Listed common shares of stock at the Philippine Stock Exchange as of December 31, 2021 stands at One Billion Six hundred Sixty one million Six hundred Sixty Six thousand Six hundred Sixty Five (1,661,666,665) shares while Issued and Outstanding common shares is Two Billion Three Hundred Forty Four Million One hundred Sixty Eight thousand Four hundred Seventy Two (2,344,168,472) shares. On November 24, 2015, the Board of Directors of the Company approved a resolution for the change in the Par Value of the shares of stock of the corporation from P 1.00/share to P 0.20/share. The resolution was approved by two-thirds of the shareholders of the company in a Special Stockholders meeting held on January 29, 2016. On October 19, 2021, the Company submitted an application for the additional listing of 682,501,807 common shares subscribed via Private Placement of Highvalue Holdings Inc. (120,000,000 shares) and Primex Development Corporation (562,501,807 shares). The shares were listed on the Philippine Stock Exchange on March 17, 2023, bringing the total listed shares to 2,344,168,472.

#### 3. Nature of Operations

The Company is authorized to engage in the real estate business in all its aspects, to purchase, lease, or in any matter dispose of or deal with lands and other real property and any interest therein.

Its completed projects include two high-end residential projects, namely: (1) Goldendale Village located in Malabon; and (2) The Richdale, situated along Sumulong Highway, Antipolo City. Both projects are being marketed on a lots-only basis. The Company has also completed the development of Goldendale II, a 4.6 hectare mixed-use project that is also marketed on a lots-only basis. The company has completed the development of the Tresor Residences, a mid-rise residential condominium along Gov. Pascual Ave., Malabon City. In 2015, the Company acquired a majority stake in an affiliate, Primex Realty Corporation, whose real estate development project, The Stratosphere, is already completed. On January 17, 2018, the Company acquired full ownership and control of Primex Realty Corporation, thereby making it a wholly-owned subsidiary. Presently, Primex Realty Corporation have developed Primex Tower, a 50-storey prime office building

at the corner of EDSA and Connecticut in Greenhills, San Juan. The project is almost complete, except for the development of the Dusit Greenhills Hotel on the top 10 floors of the building which is still ongoing.

Consolidated Total Revenues totaled Php 530.805 M for the year, a rise of 100 % from the Php 265.693 M of the previous year and 225 % increase from the Php 163.220 M of 2022. Total Real estate sales amounted to Php 303.349 M, a 138 % increase from the Php 126.983 M of 2023 and a 206 % more than the Php 98.932 M of 2022. These revenues earned from real estate sales, in turn accounted for 57 % of all revenue sources. There are no seasonal aspects that will have a material effect on the financial condition or results of operation of the company. There are no known trends, events or uncertainties that have had or that are reasonably expected to have a favorable or unfavorable impact on net sales or revenues or income from continuing operations. There are no significant elements of income or loss that did not arise from continuing operations. The company does not foresee any effect on its business from existing or probable governmental regulations.

#### **Business Competition/Risks**

The real estate industry is highly dependent on the state of the national economy as the growth of the industry has a direct correlation with the state of the national income and the effective disposal income of the people. An increase in disposal income shall correspond to a proportionate increase in expenditures on housing.

There are no major risks involved in the businesses of the Company. Transfer of Titles are effected only after payments are made in full, thereby ensuring no bad accounts.

There is a need for real estate companies to secure government approval such as Development Permit, Certificate of Registration and License to Sell before the commencement of any development. The Company has complied with all appropriate government regulations, including environmental laws and has secured all necessary licenses prior to the development and marketing of its Goldendale and Richdale projects.

The company does not own nor does it depend on any patents, trademarks, copyrights, franchises, concessions and/or royalty agreements for its operations. For its development activities, the company spent Php 2,370,062,041.00 in 2024, Php 2,537,804,703.00 in 2023, Php 3,048.0 M in 2022 which is 4 times, 9.5 times, and 31 times, respectively of their respective yearly's total revenues.

The Company is not aware of any pending legislation or governmental regulation which is expected to materially affect its business.

Expenses incurred by the Company for purposes of compliance with environmental laws consist primarily of payments for government regulatory fees which are standard in the industry and are minimal.

As of December 31, 2024, the Company and its subsidiary, Primex Realty Corporation, both have the same number of full-time employees and positions, broken down as follows:

<u>Department</u>	No. of Employees
Adminstrative & Personnel	3
Marketing	1
Operations & Engineering	4
Finance	2
	10

There are no supplemental benefits or incentive arrangements with the aforementioned employees, aside from what is provided for by law.

The Company engages the services of outside personnel (sales coordinators, brokers, independent contractors, engineers, etc.) to provide the marketing, operations, and engineering services to the company.

The contracting out of engineering services is mostly on a per project or contract basis. The number of personnel involved depends on the requirements of the particular project.

**Item 2. Properties** 

Investment in real properties as of December 31, 2024 are as follows:

Particular 1. Land	<u>Location</u> Annapolis, Greenhills	Total area <u>in sq. m.</u> 1,000	Description This property is bounded by Annapolis, Florida and Columbia Sts. Most ideal for a first class, high rise residential condom condominium.

8. Land	Naic, Cavite	49,295	Located in Naic, Cavite

<sup>10.</sup> Building EDSA Connecticut 35,349 Primex Tower

#### **Item 3. Legal Proceedings**

The following cases represent the actions now pending before various fora:

1 Civil Case No. 60754, Branch 71 of the Pasig City Regional Trial Court entitled Primex Corporation vs. Marcelino E. Lopez, et. al., - an action filed by Primex Corporation on April 29, 1991 for injunction and specific performance (and breach of warranty after the case was filed) against Marcelino E. Lopez, et. al., due to delays in delivering peaceful possession and valid title, and for breach of warranty that there was no pending cases when the property was originally contracted for sale to Primex Corporation. Primex filed a Motion to Reset Pre-trial which was denied. Primex was declared non-suited and its complaint was dismissed. Defendants' evidence on their counterclaim was received exparte. On August 11, 1995, the RTC rendered a decision granting the counterclaims of Defendants against Primex. Primex filed a Motion for New Trial which was denied by the RTC in its order dated November 7, 1995 on the ground that the motion was not timely filed. Primex appealed both the August 11 and November 7, 1995 orders of the RTC to the Court of Appeals (CA). The CA, in its decision dated April 8 1999, set aside both orders and remanded the case to the RTC to conduct a trial de novo. Case pending appeal under CAGR No. CV-163959 and CAGR No. SP-82865. (Waiting for execution on Final and executory judgment)

#### Item 4. Submission of Matters to a Vote of Security Holders

A change in the Par Value of the stock of the Company, from Php 1.00/share to Php 0.20/share, was approved by two-thirds of the shareholders of the company in a Special Stockholders meeting held on January 29, 2016.

\* EA Hok Ki Holdings Corp. is owned and controlled by the family of Eduardo O. Ang, former Director of the Company (deceased) and Anetta C. Ang (Director) Dividends

It is the Company's current intention to periodically declare a portion of its unrestricted retained earnings as dividend either in the form of cash or stock. The payment of dividends depends upon the company's earnings, cash flow and financial condition, among other factors. The Company may declare dividends only out its unrestricted retained earnings. These represent the net accumulated earnings of the Company, with its capital unimpaired, which are not appropriated for any other purpose.

The Company may pay dividends in cash, by the distribution of property, or by the issue of shares of stock. Dividends paid in cash are subject to the approval of the Board of Directors. Dividends paid in the form of additional shares are subject to approval by both the Board of Directors and at least two-thirds (2/3) of the outstanding capital stock of the shareholders at a shareholders' meeting called for such purpose.

#### **Dividend History**

Year	Income Year	Rate of Dividend	Record Date	Payment Date
2018	2016	P 0.055/share	07/20/2018	08/10/2018
2019	2017	P 0.026/share	07/18/2019	08/12/2019
2021	2018	P 0.020/share	05/28/2021	06/10/2021
2021	2019	P 0.0042/share	12/02/2021	12/27/2021
2022	2020	P 0.032/share	07/19/2022	08/10/2022
2023	2021	P 0.0027/share	08/04/2023	08/30/2023

In lieu of cash, the company's Board of Directors have previously approved the payment of the cumulative dividends of its preferred shares in the form of common shares. The same preferred shares have since been converted to common shares.

The Corporation Code prohibits stock corporations from retaining surplus profits in excess of one hundred percent (100%) of their paid-in capital stock, except when justified by definite corporate expansion projects or programs approved by the Board of Directors or when the corporation is prohibited under any loan agreement with any financial institution or creditor from declaring dividends without its consent, and such consent has not yet been secured, or when it can be clearly shown that such retention is necessary under special circumstances obtaining in the corporation.

#### **Recent Sales of Unregistered or Exempt Securities**

On December 08, 2003, the company's Board of Directors approved the conversion of 100,000,000 shares of Preferred stock to Common shares. In lieu of cash, the Board of Directors also approved the issuance of 6,333,333 shares of Common stock exclusively to existing Preferred shareholders as payment for the accumulated cash dividends. A Certification from the Corporate Finance Department of the Securities and Exchange Commission was issued on December 12, 2003, certifying that the issuance are exempt transactions under Section 10.1 (e) and (g) of the Securities Regulation Code. On August 15, 2014, the Company issued 17,000,000 shares of common stock in favor of a private placement investor. On October 10, 2016, the Company accepted an offer for private

placement of 45,000,000 common shares at P 4.00/share. The aforesaid shares are already listed at the Philippine Stock Exchange. In 2020, the Company also accepted subscription to its Common shares thru Private Placement from an affiliate, Primex Development Corp. for 220,036,054 shares on August 28, 2020 and from Highvalue Holdings Inc. for 120,000,000 shares on Nov. 06, 2020 and again, on Feb., 2021 from company affiliate, Primex Development Corporation for 342,465,753 common shares. As of December 31, 2023, these Private Placement shares have already been issued Stock Certificates and the shares were listed at the Philippine Stock Exchange on Mar. 17, 2023.

#### Item 6. Management's Discussion and Analysis

<sup>\*</sup> The total number of shares owned by all directors and officers as a group is 1,264,361,995 shares, which is equivalent to 53.93 % of the total issued and outstanding capital stock of the Registrant.

#### Item 12. Certain Relationships and Related Transactions

In the normal conduct of business, the Company has transactions with its stockholders and related parties consisting of principally non interest-bearing advances without definite call dates.

#### PART IV – CORPORATE GOVERNANCE

#### **Item 13.** Corporate Governance

The Company's Board of Directors and Management believe that good corporate governance is a necessary component of sound strategic business management.

In 2002, a Manual on Corporate Governance was adopted by the Company to institutionalize the principles of good corporate governance in the entire organization. As contained in the Manual, the Nomination, Compensation and Remuneration and Audit committees were created. Each committee has three (3) voting members, one of whom is an independent director. The Company's Manual on Corporate Governance was revised and adopted on Feb. 15, 2011 to incorporate additional provisions promulgated by the Securities and Exchange Commission. An amended Manual on Corporate Governance was again filed with the Securities & Exchange Commission on April 08, 2015. An amended Manual on Good Corporate Governance was filed with the Securities and Exchange Commission on May 31, 2017.

The Company has designated a Compliance Officer who is tasked with monitoring compliance with the provisions and requirements of the Manual. No violations or sanctions have been imposed on any director, officer or employee for non-compliance with the Manual.

<sup>\*</sup> Registrant has no knowledge of any arrangement which may result in a change in control of the registrant.

The Company's Manual on Corporate Governance also requires that the Company's External Auditor be rotated or the Handling partner be changed every five (5) years or earlier. Starting with the audit of year 2022, a new partner-in-charge, Ms. Maria Antoniette L. Aldea, was appointed. All the Directors of the Company have already attended their seminar on Corporate Governance.

## MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION FOR EACH OF THE LAST THREE FISCAL YEARS

#### 2024

For the year 2024 ended December 31, the Company had a total of Php 303.349 M in consolidated real estate sales, which are all from the sales of units of the Primex Tower. This total in real estate sales represents an increase of 138 % from sales of the previous year and sales of 200 % more than that of 2022. Total Rental Income for the year amounted to Php 198.286 M, which is 56 % higher than the Php 127.132 M last year and three times more than the Php 48.739 M earned in 2022. Interest earned from real estate sales reached Php 16.150 M for the year, as compared with the Php 0.830 M in 2023 and the Php 1.364 M in 2022 as most real estate sales are consummated on installment basis. Miscellaneous income contributed Php 8.391 M, as compared with the Php 10.747 M of last year and the Php 14.184 M in 2022. Cost of real estate sales was up to Php 91.762 M, from Php 49.438 M the previous year and Php 39.388 M in 2022 on account of the significant rise in real estate sales.

General and administrative expense increased by 43 % over the amounts incurred for the past two prior years, Php 100.920 M incurred in 2024 over the Php 70.342 M of 2023 and the Php 70.969 M of 2022. Taxes and Licenses expense rose to Php 19.127 M from the Php 15.202 M last year and the Php 15.162 M of the previous year due to the accrual of unpaid fees. Depreciation expense reached Php 11.660 M., almost doubled the Php 5.687 M of last year and the Php 5.519 M of 2022. Salaries, wages and employee benefits climbed to Php 11.054 M, from the Php 10.389 M last year and 2022's Php 9.561 M on account of increased wages. The Php 28.412 M spent for Light, Water and Dues was more than double those incurred for the past prior two years due to system loss of water arising from broken and deteriorated water distribution system in both Goldendale and Richdale. Commission paid out dropped to Php 1.219 M as compared with Php 1.667 M and Php 1.714 M, respectively of the past two years as some commissions are not yet due for payment. Insurance expense jumped to Php 4.492 M, as compared with the Php 2.005 M of 2023 and the Php 0.733 M in 2022 due to insurance premiums of the Primex Tower. The rise in Retirement expense over the past two years is attributable to additional employees of both parent and wholly owned subsidiary. The decrease in Gas and Oil expense to Php 0.935 M was due to lower petroleum prices and less utilization of company heavy equipment and vehicles. Communication and transportation expense for 2024 and 2023 dropped from the Php 0.569 in 2022 M due to the reduction in marketing and promotional activities for the Primex Tower. Security, Messengerial and Janitorial Expense was down to Php 1.647 M on account of reduced number of security guards deployed. Repairs and Maintenance was significantly reduced by 27 % to Php 9.318 M due to less repairs and maintenance of heavy equipment on account of minimal utilization. A provision for expected credit losses amounting to Php 6.372 M was booked as compared with nil the past two previous years Miscellaneous expense dropped by almost half to Php 2.620 M, down from the Php 5.245 M in 2023 and the Php 5.142 M of 2022 due to lesser out-of-pocket expenses.

The Company's Balance Sheet reflects very minimal change as of December 31, 2024. Total Current Assets, which stood at Php 3,648,025.991 M as of yearend 2023 was down to Php 3,443,664,774 M as of December 31, 2024. Cash, which was Php 28.576 M as of yearend 2023 was up to Php 151.076 M as of yearend 2024. Receivables also increased,

from Php 53.018 M to Php 97.118 M, solely on account of increased sales of office units of the Primex Tower. For the same reason, the 11 % decline in Real estate held for sale was on account of sold units of the Primex Tower too..

In summation, the 138 % rise in real estate sales for the year and the 56 % improvement in Rental Income are the 2 most significant contribution to the company's income performance. Net Income, which was Php 94.795 M the previous year and Php 33.631 in 2022 jumped to Php 116.436 M for 2024.

#### 2023

For the year 2023 ended December 31, the Company accomplished Real Estate sales totaling Php 126.983 M, which are all from the sales of units at the Primex Tower. This year's total real estate sales is 28 % higher than the Php 98.932 M sold last year and is 320 % more than the Php 29.622 M in 2021. Rental Income earned for the 12 months of 2023 amounted to Php 127.132 M, which is 164 % more than the Php 48.739 M of the previous year and 195 % higher than the Php 43.286 M earned in 2021. Interest Income earned for the year reached Php 0.830 M, which is 36 % lower than the Php 1.364 M of 2022 and 61 % less than the Php 2.130 M of 2021. Miscellaneous Income contributed Php 10.747 M during the 12 month period, 24 % less than the Php 14.184 M contributed in 2022 and a 32 % decline than the Php 15.762 M earned in 2021. Cost of Real Estate Sales was recorded at Php 49.438 M, or 25 % more than the Php 39.388 M spent in 2022 and almost double the Php 17.664 M spent in 2021, mainly on account of units of the Primex Tower. Interest Expense spent amounted to Php 19.474 M, which is 142 % higher than the Php 8.019 M incurred last year and double the Php 9.647 M spent in 2021.

General and Administrative Expenses for the year reflected minimal changes as compared with the same period last year but showed a 20 % increase from 2021 level, from Php of last year 70.969 M and Php 58.377 M of 2 year's ago to Php 70.342 M. Taxes and Licenses expense for the year was identical at the Php 15 M level but was 39 % less than the Php 24.849 M incurred in 2021, due to lesser amounts of Documentary Stamp Tax payment. Depreciation expense, which was Php 6.023 M for the year 2021, decline by 8 % to Php 5.519 M last year and remained at the Php 5 M in 2023. Salaries, wages and employee benefits, recorded a 8.6 % rise over the previous 2 years which remains basically unchanged at the Php 9 M levels. The Php 10.717 M spent for Light, Water and Dues was 45 % less than the Php 19.46 M last year but is 120 % more than the Php 4.88 M in 2021 on account of the payment of accumulated and accrued association dues of the Stratosphere of company owned units. Commission paid out remained basically unchanged for the past 3 years. Insurance expense more than doubled, from Php 0.733 M last year to Php 2.00 M due to insurance coverage for units of the Primex Tower. Retirement expense rose by more than 30 % over 2022 and 2021 levels which remains basically unchanged at the Php 0.600 M level.. The 11 % rise in Gas and Oil expense to Php 1.092 M was due to higher petroleum prices. While reduced utilization of company vehicles to provide transportation to employees resulted in a 42 % decline in Communication and transportation expense which remains basically unchanged for the 2 previous years. No significant changes are reflected in Security, Messengerial and Janitorial Expense for the 3-year period. Repairs and Maintenance was significantly up, from Php 0.572 M in 2021 and Php 6.895 M for the same period last year to Php 12.814 M due to cost of new spare parts and repairs and maintenance of heavy equipment. Miscellaneous expense was almost the same at the Php 5.009 M level.

The Company's Balance Sheet reflects a 7 % rise as of December 31, 2023. Total Assets, which stood at Php 4,827,230 M as of December 31, 2022 now stands at Php 5,162.434 M. Cash, which was Php 37.769 M as of yearend 2022 decreased to Php 28.576 M on account of the payment to contractors and suppliers of materials for Primex Tower. Receivables was down to Php 49.622 M, from Php 73.617 M due to maturity of installment payment schemes. Real estate held for sale rose by 6 %, from Php 3,042,457 M as of yearend 2022 to Php 3,233,979 M as of December 31, 2023. From Php 637.305 M as of yearend 2022, Property and Equipment rose to Php 790.070 M as of December 31, 2023. Total Current Liabilities rose by 20 %, from Php 1,014.283 M as of yearend 2022 to Php 1,225.193 as of December 31, 2023. Likewise, Total Liabilities jumped by 9 %, from Php 2,805.145 M to Php 3,052.394 M by yearend 2023.

In summation, the more than 62 % rise in Total Income for the year was solely the reason for the increase to Php 126.437 M in Income before Tax for the year, which is almost a 3 times the amount of the Php 44.842 M earned last year. Net Income earned amounted to Php 94.795 M which is 180 % more than the Php 33.631 M of the previous year.

#### 2022

For the twelve months of 2022 ended December 31, the Company had a total of Php 98.932 M in real estate sales, in which Php 65.027 M are sales from Primex Tower, Php 19.888 M are from sales of Goldendale Subdivision while The Richdale contributed Php 14.016 M in sales. This year's total real estate sales is 230 % more than the Php 29.622 M in sales sold last year but is only 18% that of real estate sales in 2020. Rental Income earned totaled Php 48.739 M, a 12 % increase from the Php 43.286 M of the previous year but is 47 % less that of the Php 92.688 M of 2020. Interest Income from Real Estate sales reached Php 1.364 M for the year, a 36 % drop off the Php 2.130 M of last year but is only 27 % of the interest income earned in 2020. Miscellaneous income contributed Php 14.184 M, as compared with the Php 1.708 M of 2021 and which was nil in 2020. Cost of real estate sales amounted Php 39.388 M as compared with the Php 17.664 M of the previous year and the Php 324.276 M incurred in 2020.

General and administrative expense increased by 20 % to Php 70.969 M, up from the amounts incurred in the previous year which is Php 58.377 M and is 52 % more than the Php 46.087 M incurred in 2020. Taxes and Licenses expense which totaled Php 24.849 M in 2021 and Php 15.965 M in 2020 dropped to Php 9.620 M for the year, due to minimal or reduced payment of Documentary Stamp Tax. Depreciation expense, which was Php 6.023 M for the year 2021, decline by 8 % to Php 5.519 M. Salaries, wages and employee benefits, remains basically unchanged. The Php 19.460 M spent for Light, Water and Dues was three times more the Php 4.880 M last year and 10 times more than the Php 1.9410 M in 2020 on account of the payment of accumulated and accrued association dues of the Stratosphere of company owned units.. Commission paid out rose to Php 1.714 M as compared with Php 1.534 M and Php 2.110 M, respectively of the past two years due to increased real estate sales. Insurance expense increased by 70 %, from Php 0.433 M to Php 0.733 M. Retirement expense remains basically unchanged at the Php 0.600 M level.. The 67 % rise in Gas and Oil expense to Php 0.976 M was due to higher petroleum prices and more utilization of company vehicles to provide transportation to employees. Communication and transportation expense remains basically unchanged, as is Security, Messengerial and Janitorial Expense. Repairs and Maintenance was significantly up, from Php 0.572 M to Php 6.895 M due to

repairs and maintenance of heavy equipment. Miscellaneous expense was almost the same at the Php 5.009 M level.

The Company's Balance Sheet reflects a 18 % rise as of December 31, 2022. Total Assets, which stood at Php 4,067,142 M as of December 31, 2021 now stands at Php 4,827.230 M. Cash, which was Php 67.020 M as of yearend 2021 decreased to Php 37.769 M on account of the payment to suppliers of materials for Primex Tower. Receivables jumped to Php 73.617 M , from Php 47.069 M due to more availment of real estate sales under installment scheme. Real estate held for sale rose by 3 %, from Php 2,954,209 M as of yearend 2021 to Php 3,042,457 M as of December 31, 2022. From Php 9.615 M as of yearend 2021, Property and Equipment rose to Php 637.305 M as of December 31, 2022. Total Current Liabilities almost doubled, from Php 531.520 M as of yearend 2021 to Php 1,014.283 as of December 31, 2022. Likewise, Total Liabilities jumped by 40 %, from Php 2,003.600 M to Php 2,805.145 M as of yearend 2022.

In summation, the more than 200 % rise in Real Estate sales for the year was solely the reason for the increase to Php 44.842 M in Income before Tax for the year, almost a 10 % times rise from the Php 5.112 M earned last year. Net Income earned amounted to Php 33.631 M, a 170 % rise from the Php 12.486 of the previous year.

There are no events that will trigger any direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation.

There are no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the company with unconsolidated entities or other persons created during the reporting period.

There are no known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations.

There are no material commitments for capital expenditures.

#### **EXTERNAL AUDIT FEES**

The aggregate fees billed for the last two (2) fiscal years for professional services rendered by company's external auditors for the audit of its annual financial statements or for services that are normally provided in connection with statutory and regulatory filings are:

```
Year 2022 = Php 1,000,000.00
Year 2023 = Php 1,000,000.00
Year 2024 = Php 1,000,000.00
```

The Company's Top key performance indicators:

#### 1.Sales Volume Growth

The Company registered consolidated Real Estate sales of Php 303.349 M as compared with the Php 126,983 M. of the previous year and the Php 98.932 M. for the twelve

months of 2022. This translates to a 140 % rise from the previous year and a 200 % more from 2022 amounts.

#### 2. Revenue Growth

Total revenues for the twelve months period ended December 31, 2024 amounted to Php 530.805 M as compared with the Php 265.693 M in the twelve months period of 2023 and 2022's Php 163.220 M., or a 100 % and 225 % increase over 2023 levels and 2022 levels, respectively.

#### 3. Realized Gross Profit on Sales

For its sales efforts, the Company was able to realize Gross Profit on sales of Php 233.601 M as against the Php 91.787 M of the previous year and the Php 74.208 M of 2022. This is the amount of real estate sales less the cost of development.

#### 4. Operating Margin

For the twelve months period of 2024, the Company incurred operating expenses of Php 324.210 M as compared with last year's Php 139.256 M, and the Php 118.3777 M spent in 2022. This resulted in an operating income of Php 206.594 M as against the Php 126.437 M earned in 2023 and the Php 44.842 M in operating income in 2022.

#### 5. Asset Growth

Over the twelve months of 2024, total assets improved from Php 5,162.434 M as of yearend 2023 to Php 5,340.659 M in December 31, 2024.

#### STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The management of **Primex Corporation** is responsible for the preparation and fair presentation of the financial statements including the schedule attached therein, for the years ended 2022, 2023 and the year ended December 31, 2024, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible from assessing the Company's ability to continue as a going concern, disclosing, as applicable matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

The Board of Directors reviews and approves the financial statements including the schedules attached therein, and submits the same to the stockholders or members.

Sycip, Gorres, Velayo & Co., the independent auditors appointed by the stockholders, has audited the financial statements of the Company in accordance with Philippine Standards on Auditing and in its report to the stockholders or members, has expressed its opinion on the fairness of presentation upon completion of such audit.

responsible for this report	

<sup>\*</sup>If you are a holding company, you could have an option whether to report on the holding company only or include the subsidiaries. However, please consider the principle of materiality when defining your report boundary.

## Explain how you applied the materiality principle (or the materiality process) in identifying your material topics. 14

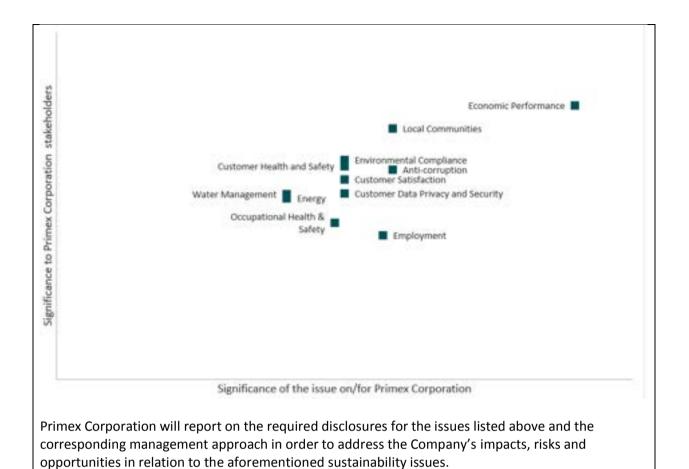

For the Company to understand the concerns of its stakeholders and examine how the its operations have impacts on and are affected by economic, social and environmental issues, we have conducted a materiality study. The approach to materiality adheres to the requirements of the Global Reporting Initiative (GRI) and incorporates consideration of the United Nations Sustainable Development Goals (SDGs) to ensure that we are aligned with the global sustainable development priorities.

A scan of external sources (i.e. peer sustainability reports, media reports about the Company, and NGO, industry and other publications) and internal Company documents (i.e. corporate strategy, policies, annual report, board papers, management meeting minutes) was undertaken to come up with a preliminary list of economic, environmental, social and governance issues. The list of issues was presented to key Company personnel to assess and rate each issue's importance based on stakeholder interest and the Company's capacity to have impact on the issues and/or the possible risk/opportunity the issues pose to the Company. Finally, the board of directors and management reviewed and validated the material sustainability issues that Primex Corporation will prioritize in its first sustainability report.

The following issues are considered material to the Company and its stakeholders, as outlined in the table and illustrated in the materiality matrix below:

Economic	Economic Performance	
ECOHOITIC	Anti-corruption	
	Energy	
Environment	Water Management	
	Environmental Compliance	
	Employment	
	Occupational Health and Safety	
Social	Local Communities	
SUCIAI	Customer Satisfaction	
	Customer Health and Safety	
	Customer Data Privacy and Security	

### **Materiality Process**

<sup>14</sup> See *GRI 102-46* (2016) for more guidance.

The Company has identified that its occupational health and safety practices and policy impact its:

- Compliance with legal requirements and/or recognized standards/guidelines relating to occupational health and safety
- Relationship with employees

The figures shown in the above table cover the persons directly employed by Primex Corporation and its subsidiary, Primex Realty Corporation, and workers who are not employees by the Company but whose workplace is controlled by the Company (i.e. security contractors).

#### What are the Risk/s Identified?

The Company has identified the occurrence of a work-related injury, fatality and ill-health in its sites, whether these are directly or indirectly controlled by the Company, as its main risk in relation to this material sustainability topic.

#### What are the Opportunity/ies Identified?

Adopting occupational health and safety practices that will further prevent and mitigate negative occupational health and safety impacts directly linked to the Company's operations, products and services has been identified as an opportunity in relation to this material sustainability topic.

#### **Management Approach**

The Company prioritizes the health and safety of its workers. As stated in its policy relating to health, safety and welfare of employees, including company-sponsored trainings, "The Company shall maintain a safe, productive and conducive workplace and comply with all applicable health, safety and environmental laws." The full text of the policy can be found here: http://www.primex.ph/companypolicies.html. The board/management may discuss in the future the adoption of occupational health and safety practices that will further prevent and mitigate negative occupational health and safety impacts directly linked to the Company's operations, products and services.

# What is the impact and where does it occur? What is the organization's involvement in the impact?

#### **Management Approach**

The Company acknowledges that it may have significant social and environmental impacts to the local communities where it operates, including but not limited to socioeconomic development and infrastructure and use of shared resources in the area.

The Company adheres to Principle 16 of the Code of Corporate Governance for Publicly-Listed Companies and states its compliance to Recommendation 16.1 in its 2019 Integrated Annual Corporate Governance Report. It ensures that all applicable laws and regulations are complied with to minimize risks relating to the negative social and environmental impacts of its operations. The Company also considers that its operations, specifically in relation to Goldendale II, provides the local community with employment opportunities.

#### What are the Risk/s identified?

Risks identified relating to this material sustainability topic are:

- Reputational risk
- Fines and non-monetary sanctions
- Other costly socioeconomic and environmental liabilities

#### What are the Opportunity/ies identified?

The Company has identified that it can have a positive impact to the local communities where it has commercial developments as the businesses it accommodates provide employment to residents within and around the area.

#### INDEPENDENT AUDITOR'S REPORT

The Board of Directors and Stockholders Primex Corporation Ground Floor, Richbelt Terraces 19 Annapolis Street, Greenhills San Juan, Metro Manila

#### **Opinion**

We have audited the consolidated financial statements of Primex Corporation and its subsidiaries (the Group), which comprise the consolidated statements of financial position as at December 31, 2024 and 2023, and the consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for each of the three years in the period ended December 31, 2024, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2024 and 2023, and its consolidated financial performance and its consolidated cash flows for each of the three years in the period ended December 31, 2024 in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

#### **Basis for Opinion**

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For the matters below, our description of how our audit addressed these matters is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matter below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

#### Real Estate Revenue Recognition

The Group's revenue recognition process, policies and procedures are significant to our audit because of the materiality of the amount and these involve application of significant judgment and estimation in the following areas: (1) assessment of the probability that the Group will collect the consideration from the buyer; (2) application of the input method as the measure of progress completion in determining real estate revenue; and (3) estimation of the total project cost.

In evaluating whether collectability of the amount of consideration is probable, the Group considers the significance of the buyer's initial payments in relation to the total contract price (or buyer's equity). Collectability is also assessed by considering factors such as history with the buyer, age and pricing of the property. Management regularly evaluates the historical sales cancellations and back-outs, if it would still support its current threshold of buyer's equity before commencing revenue recognition.

In measuring the progress of its performance obligation over time, the Group uses the input method. Under this method, progress is measured based on actual costs incurred relative to the estimated total project cost. In the estimation of total project costs, the Group requires technical inputs or determination by the Group's specialists (project engineers) to estimate all the inputs involved in the construction and development of the projects to include materials, labor and other costs directly related in the construction of the projects.

The disclosures related to real estate revenue are included in Notes 2 and 3 to the consolidated financial statements.

#### Audit Response

For the buyers' equity, we evaluated management's basis of the buyer's equity by comparing this to the historical analysis of sales cancellations from buyers with accumulated payments above the collection threshold.

For the application of the input method, in determining real estate revenue, we obtained an understanding of the Group's processes for determining the POC, including cost accumulation process, and determining and updating the total estimated costs. We assessed the competence, capabilities and objectivity of the project engineers by reference to their qualifications, experience and reporting responsibilities. For the selected project, on a sampling basis, we traced the actual costs incurred during the year to relevant documents such as progress billings and accomplishment reports. We visited the project site and made relevant inquiries with the project engineer and correlated our observations with the reported project accomplishment. We performed test computation of the POC calculation of management. For the estimation of the total project costs of the selected project, we obtained the approved total estimated costs and any revisions thereto and the supporting details. We performed a look-back analysis for both ongoing and fully completed projects in current and prior years and performed inquiries with the project engineer to understand the basis of the remaining estimated costs to complete and any revisions thereto.

#### Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement) and SEC Form 17-A for the year ended December 31, 2024, but does not include the consolidated financial statements and our auditor's report thereon. The SEC Form 20-IS (Definitive Information Statement) and SEC Form 17-A for the year ended December 31, 2024 are expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

## Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for the purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Maria Antoniette L. Aldea.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### 1. Corporate Information and Authorization for Issuance of the Consolidated Financial Statements

#### Corporate Information

Primex Corporation (PC or the Parent Company) is domiciled and was incorporated in the Republic of the Philippines on July 17, 1986. The Parent Company is engaged in the real estate business to purchase, lease, or in any manner dispose of or deal with land and other real property and any interest therein. The Parent Company's shares of stock are listed and are currently traded at the Philippine Stock Exchange.

As of December 31, 2024 and 2023, the consolidated financial statements represent the consolidation of the financial statements of the Parent Company and its subsidiaries as follow:

	Nature of Business	Ownership interest
Primex Realty Corporation (PRC)	Real Estate	100%
Primex Housing Dev't. Corp. (PHDC)	Real Estate	100%

PRC and PHDC are both domiciled and were incorporated in the Philippines on October 1, 1979 and August 18, 2017, respectively. PRC is engaged in the real estate business to purchase, lease, or in any manner dispose of or deal with land and other real property and any interest therein, while, PHDC is utilized for future mass housing developments of the Parent Company and is non-operating as of December 31, 2024.

The registered office address of Primex Corporation and its subsidiaries (the Group) is at Ground Floor, Richbelt Terraces, 19 Annapolis Street, Greenhills, San Juan, Metro Manila, Philippines.

#### Authorization for Issuance of the Consolidated Financial Statements

The consolidated financial statements of the Group as at December 31, 2024 and 2023 and for each of the three years in the period ended December 31, 2024 were approved and authorized for issue by the Board of Directors (BOD) on April 30, 2025.

#### 2. Material Accounting Policy Information

#### Basis of Preparation

The consolidated financial statements have been prepared using the historical cost basis, except for investments in equity securities that have been measured at fair value. The consolidated financial statements are presented in Philippine Peso (P), which is the Parent Company's functional currency. All amounts are rounded to the nearest Philippine Peso unit unless otherwise indicated.

The consolidated financial statements provide comparative information in respect of the previous period.

#### Statement of Compliance

The consolidated financial statements of the Group have been prepared in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

#### Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries over which the Parent Company has control. The financial statements of the subsidiaries are prepared for the same reporting year as the Parent Company, using consistent accounting policies. The Parent Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Parent Company obtains control, and continue to be consolidated until the date when such control ceases. Specifically, income and expenses of a subsidiary acquired or disposed of during the period are included in the consolidated statement of comprehensive income from the date the Parent Company gains control or until the date when the Parent Company ceases to control the subsidiary.

The financial statements of the subsidiary are prepared for the same reporting period as the Parent Company, using consistent accounting policies. All intra-group balances, transactions and gains and losses resulting from intra-group transactions and dividends are eliminated in full. Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Parent Company and to the non-controlling interest, even if this results in the non-controlling interest having a deficit balance. The financial statements of the subsidiaries are prepared for the same reporting year as the Parent Company, using consistent accounting policies.

#### New Standards, Interpretations and Amendments

The accounting policies adopted in the preparation of the Group's consolidated financial statements are consistent with those of the previous financial years, except for the adoption of new standards effective 2024. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective. Unless otherwise indicated, adoption of these new standards did not have an impact on the consolidated financial statements of the Group.

- Amendments to PAS 1, Classification of Liabilities as Current or Non-current The amendments clarify:
  - o That only covenants with which an entity must comply on or before reporting date will affect a liability's classification as current or non-current.
  - That classification is unaffected by the likelihood that an entity will exercise its deferral right.
  - o That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.
- Amendments to PFRS 16, Lease Liability in a Sale and Leaseback

  The amendments specify how a seller-lessee measures the lease liability arising in a sale and leaseback transaction in a way that it does not recognize any amount of the gain or loss that relates to the right of use retained.
- Amendments to PAS 7 and PFRS 7, *Disclosures: Supplier Finance Arrangements*The amendments specify disclosure requirements to enhance the current requirements, which are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.
- Adoption of the provisions of PIC Q&A 2018-12, PFRS 15 Implementation Issues Affecting the Real Estate Industry (as amended by PIC Q&As 2020-02 and 2020-04)
   On February 14, 2018, the Philippine Interpretations Committee (PIC) issued PIC Q&A 2018-12 which provides guidance on some PFRS 15 implementation issues affecting the real estate industry. On October 25, 2018 and February 8, 2019, the Philippine Securities and Exchange Commission

(SEC) issued SEC Memorandum Circular (MC) No. 14-2018 and SEC MC No. 3-2019, respectively, providing relief to the real estate industry by deferring the application of certain provisions of this PIC Q&A for a period of three years until December 31, 2020. On December 15, 2020, the Philippine SEC issued SEC MC No. 34-2020 which further extended the deferral of certain provisions of this PIC Q&A until December 31, 2023.

Starting January 1, 2024, the Group adopted the remaining provisions of PIC Q&A 2018-12, specifically on the: (i) significant financing component, (ii) exclusion of land in the determination of percentage-of-completion (POC), and (iii) implementing the IFRIC Agenda Decision on Over Time Transfer of Constructed Goods (PAS 23, *Borrowing Cost*). The Group opted to adopt the changes using modified retrospective approach effective January 1, 2024 and the impact was recorded in the opening retained earnings. The comparative information is not restated.

The modified retrospective effects of the adoption of the above changes are detailed below:

- i. The Group's adoption of the exclusion of land in the determination of POC did not have an impact as the Group does not consider land costs in the determination of its projects' POC.
- ii. The Group recognized the impact of the adoption of significant financing component and implementation of IFRIC Agenda Decision on Over Time Transfer of Constructed Goods (PAS 23, Borrowing Cost) as follows:

Consolidated Statement of Financial Position as at January 1, 2024:

		Nature of Aujus

Nature of Adjustments

#### Standards Issued but not yet Effective

Pronouncements issued but not yet effective are listed below. The Group does not expect that the future adoption of the said pronouncements will have a significant impact on its consolidated financial statements. The Group will adopt the applicable pronouncements when they become effective.

Effective beginning on or after January 1, 2025

• Amendments to PAS 21, Lack of exchangeability

Effective beginning on or after January 1, 2026

- Amendments to PFRS 9 and PFRS 7, Classification and Measurement of Financial Instruments
- Annual Improvements to PFRS Accounting Standards—Volume 11
  - o Amendments to PFRS 1, Hedge Accounting by a First-time Adopter
  - o Amendments to PFRS 7, Gain or Loss on Derecognition

- o Amendments to PFRS 9, Lessee Derecognition of Lease Liabilities and Transaction Price
- o Amendments to PFRS 10, Determination of a 'De Facto Agent'
- o Amendments to PAS 7, Cost Method

#### Effective beginning on or after January 1, 2027

- PFRS 17, *Insurance Contracts*
- PFRS 18, Presentation and Disclosure in Financial Statements
- PFRS 19, Subsidiaries without Public Accountability

#### Deferred effectivity

• Amendments to PFRS 10, Consolidated Financial Statements, and PAS 28, Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

#### **Material Accounting Policies**

#### Current versus Non-current Classification

The Group presents assets and liabilities in consolidated statement of financial position based on current/non-current classification.

#### Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level-1 quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level-2 valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level-3 valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Group's management determines the policies and procedures for recurring fair value measurement of financial assets.

At each reporting date, the Group analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies. For this analysis, the Group verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The Group, in conjunction with its external valuers, also compares the changes in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

#### Financial Instruments

Date of recognition

The Group recognizes a financial asset or a financial liability in the consolidated statement of financial position when it becomes a party to the contractual provisions of the instrument. Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on the settlement date.

#### a. Financial assets

#### Initial recognition of financial instruments

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. The Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables, except for installment contracts receivables, are measured at the transaction price determined under PFRS 15. Refer to the accounting policies on *Revenue from contracts with customers*.

In order for a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

#### Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

As of December 31, 2024 and 2023, the Group's financial assets comprise financial assets at amortized costs and financial assets designated at FVOCI with recycling of cumulative gains and losses.

#### Financial assets at amortized cost

This category is the most relevant to the Group. The Group measures financial assets at amortized cost if both of the following conditions are met:

- the financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

The Group's financial assets at amortized cost includes cash and receivables.

#### Financial assets at FVOCI (debt instruments)

The Group measures debt instruments at FVOCI if both of the following conditions are met:

- The financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling; and,
- The contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

For debt instruments at FVOCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognized in the consolidated profit or loss and computed in the same manner as financial assets measured at amortized cost. The remaining fair value changes are recognized in OCI.

When the debt instrument is disposed of, the cumulative gain or loss previously recognized under OCI is transferred to profit or loss as "Gain (loss) on sale of FVOCI investments". Where the Group holds more than one investment in the same security, cost of the disposed investment is determined on a weighted average cost basis. Interest earned on holding FVOCI investments are reported as interest income using the effective interest rate.

The Group's financial assets at FVOCI includes investment in bonds.

#### Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Group has transferred its rights to receive cash flows from an asset or has entered into a passthrough arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

#### Impairment of Financial Assets

The Group recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

For installment contracts receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Group has established a vintage analysis for installment contracts receivables that is based on historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The key inputs in the model include the Group's definition of default and historical data of three years for the origination, maturity date and default date. The Group considers trade receivables in default when contractual payment are 90 days past due, except for certain circumstances when the reason for being past due is due to reconciliation with customers of payment records which are administrative in nature which may extend the definition of default to 90 days and beyond. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group.

For other financial assets such as interest receivable, advances to homeowners' association, advances to associate and accrued rent receivable, ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since

initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For cash, the Group applies the low credit risk simplification. The probability of default and loss given defaults are publicly available and are considered to be low credit risk investments. It is the Group's policy to measure ECLs on such instruments on a 12-month basis. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL. The Group uses the ratings from Standard and Poor's (S&P) and Moody's and Fitch to determine whether the debt instrument has significantly increased in credit risk and to estimate ECLs. The Group considers a debt investment security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade'.

#### Determining the stage for impairment

At each reporting date, the Group assesses whether there has been a significant increase in credit risk for financial assets since initial recognition by comparing the risk of default occurring over the expected life between the reporting date and the date of initial recognition. The Group considers reasonable and supportable information that is relevant and available without undue cost or effort for this purpose. This includes quantitative and qualitative information and forward-looking analysis.

The Group considers that there has been a significant increase in credit risk when contractual payments are more than 90 days past due.

An exposure will migrate through the ECL stages as asset quality deteriorates. If, in a subsequent period, asset quality improves and also reverses any previously assessed significant increase in credit risk since origination, then the loss allowance measurement reverts from lifetime ECL to 12-months ECL.

#### Write-off of financial assets

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows (e.g., when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or when the Group has effectively exhausted all collection efforts).

#### b. Financial liabilities

#### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

#### Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

#### Loans and borrowings

This is the category most relevant to the Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit or loss.

The Group's loans and borrowings include accounts payable, accrued expenses, advances from related parties, long-term loans payable, lease liabilities, subscription payable and refundable deposits.

#### Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the consolidated statement of comprehensive income.

#### c. Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position, if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

#### Real Estate Held for Sale and Development

Real estate held for sale and development consists of property constructed for sale, subdivision land for sale and development and land and improvements.

Property acquired or being constructed for sale in the ordinary course of business, rather than to be held for rental or capital appreciation, is held as real estate held for sale and development and is valued at the lower of cost or net realizable value (NRV). NRV is the estimated selling price in the ordinary course of business, less estimated costs to complete and sell.

Cost includes land costs, costs incurred for development and improvement of the properties (i.e., planning and design costs, costs of site preparation, contractor's fees and other professional fees, property transfer taxes, construction overheads and other related costs).

The Group currently recognizes land held for lease as a portion of real estate held for sale and development and is intended for sale in the ordinary course of business has not changed are accounted for and presented as inventory. In cases when sale is made during the lease period, the Group shall assume all obligations and will indemnify the lessee for damages suffered.

In case of sales cancellation, the Group can repossess the properties and hold it for sale in the ordinary course of business at the prevailing market price. The repossessed properties are accounted for as inventories and recognized at its fair value less cost to repossess at the time of cancellation.

The cost of inventory recognized in consolidated statement of income on disposal is determined with reference to the specific costs incurred on the property sold, including an allocation of any non-specific costs based on the relative size of the property sold.

#### Value-added Tax (VAT)

Revenues, expenses, and assets are recognized net of the amount of VAT, if applicable.

When VAT from sales of goods and/or services (output VAT) exceeds VAT passed on from purchases of goods or services (input VAT), the excess is recognized as payable in the consolidated statement of financial position. When VAT passed on from purchases of goods or services (input VAT) exceeds VAT from sales of goods and/or services (output VAT), the excess is recognized as an asset in the consolidated statement of financial position to the extent of the recoverable amount.

The net amount of tax recoverable from, or payable to, the tax authority is included as part of other current assets or payables in the Group's consolidated statement of financial position.

#### **Investment Properties**

Investment properties comprise land and improvements and condominium and commercial spaces that are held to earn rentals and that are not occupied by the companies in the Group.

The Group uses the cost model in measuring investment properties since this represents the historical value of the properties subsequent to initial recognition. Investment properties, except for land, are carried at cost less accumulated depreciation and amortization and any impairment in residual value. Land is carried at cost less any impairment in value.

Expenditures incurred after the investment property has been put in operation, such as repairs and maintenance costs, are normally charged against income in the period in which the costs are incurred.

Depreciation of investment properties are computed using the straight-line method over the estimated useful lives of the assets. The estimated useful lives and the depreciation method are reviewed periodically to ensure that the period and method of depreciation are consistent with the expected pattern of economic benefits from items of investment properties.

The estimated useful life of investment properties which is comprised of building is 30 years.

Investment properties are derecognized when either they have been disposed of, or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on the retirement or disposal of an investment property is recognized in the consolidated statement of income in the year of retirement or disposal.

A transfer is made to investment property when there is a change in use, evidenced by ending of owner-occupation, commencement of an operating lease to another party or ending of construction or development. A transfer is made from investment property when and only when there is a change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sale. A transfer between investment property, owner-occupied property and inventory does not change the carrying amount of the property transferred nor does it change the cost of that property for measurement or disclosure purposes.

#### Investment in an Associate

The Group's investment in an associate is accounted for under the equity method of accounting. An associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating decisions of the investee, but is not control over those policies.

The considerations made in determining significant influence are similar to those necessary to determine control over subsidiaries.

After application of the equity method, the Group determines whether it is necessary to recognize any additional impairment loss with respect to the Group's net investment in the associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, and then recognizes the loss in the consolidated statement of comprehensive income.

Upon loss of significant influence over the associate, the Group measures and recognizes any remaining investment at its fair value. Any difference in the carrying amount of the associate upon loss of significant influence and the fair value of the remaining investment and proceeds from disposal is recognized in the consolidated statement of income. When the Group's interest in an investment in associate is reduced to zero, additional losses are provided only to the extent that the Group has incurred obligations or made payments on behalf of the associate to satisfy obligations of the investee that the Group has guaranteed or otherwise committed. If the associate subsequently reports profits, the Group resumes recognizing its share of the profits if it equals the share of net losses not recognized.

The financial statements of the associates are prepared for the same reporting period as the Group. The accounting policies of the associates conform to those used by the Group for like transactions and events in similar circumstances.

#### **Property and Equipment**

Property and equipment are stated at cost, less accumulated depreciation and impairment loss, if any. The initial cost of property and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use including borrowing costs.

Subsequent costs are included in the asset's carrying amount or recognized as separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the items can be measured reliably. All other repairs and maintenance are charged against current operations as incurred.

It is the Group's policy to classify right-of-use assets as part of property and equipment. The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received and estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories.

Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognized right-of-use assets are depreciated on a straight-line basis over the shorter of their estimated useful life and lease term. Right-of-use assets are subject to impairment.

Depreciation commences once the assets are available for use and is computed on a straight-line basis over the following estimated useful lives of the assets:

	Years	
Transportation equipment	5	
Office furniture, fixtures and equipment	10	
Leasehold improvements	5 or term of the lease,	
	whichever is shorter	
Building	10	

The asset's residual values, useful life and depreciation method are reviewed periodically to ensure that the period and method of depreciation are consistent with the expected pattern of economic benefits from items of property and equipment.

Construction in progress, included in property and equipment, is stated at cost. Cost of construction in progress includes cost of construction, capitalized borrowing cost and other directly attributable cost of bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Construction in progress is not depreciated until such time that the relevant assets are completed and ready for use.

When property and equipment are retired or otherwise disposed of, the cost and the related accumulated depreciation and any impairment loss are removed from the accounts, and any resulting gain or loss is credited to or charged against current operations.

Fully depreciated property and equipment are retained in the accounts while still in use although no further depreciation is credited or charged to current operations.

#### Advances to Contractors

Advances to contractors are carried at cost less impairment losses, if any. These represent advance payments to contractors for the construction and development of real estate held for sale and development and property and equipment. These are recouped upon every progress billing payment depending on the percentage of accomplishment and are classified based on the final classification of the asset to which it is intended for (i.e., real estate held for sale and development and property and equipment).

#### Impairment of Nonfinancial Assets

The Group assesses at each reporting date whether there is an indication that any item of investment in an associate, property and equipment, investment properties and other nonfinancial assets may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes a formal estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is assessed as part of the cash generating unit to which it belongs. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or cash-generating unit). Impairment losses of continuing operations are recognized in profit or loss in those expense categories consistent with the function of the impaired asset.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss unless the asset is carried at revalued amount, in which case, the reversal is treated as a revaluation increase. After such reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

#### Equity

#### Capital stock and additional paid-in capital

The Group records capital stock at par value and additional paid-in capital for the excess of the total contributions received over the aggregate par values of the equity share. Incremental costs incurred which are directly attributable to the issuance of new shares are deducted from additional paid-in capital.

#### Retained earnings

Retained earnings represent accumulated earnings of the Group less dividends declared, and any adjustments arising from application of new accounting standards, policies on corrections of errors applied retrospectively.

#### Other equity reserve

Other equity reserve pertains to the additional ownership acquired from the Group's non-controlling interests.

#### Treasury shares

Own equity instruments which are reacquired, are carried at cost and are deducted from equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Parent Company's own equity instruments. When the shares are retired, the capital stock account is reduced by its par value and excess of cost over par value upon retirement is debited to additional paid-in capital to the extent of the specific or average additional paid in capital when the shares were issued and to retained earnings for the remaining balance

#### Other Comprehensive Income (OCI)

OCI includes items of income and expense that are not recognized in the profit or loss for the year in accordance with PFRS. The Group's OCI pertains to remeasurement loss arising from defined benefit pension plan which cannot be recycled to profit or loss and unrealized fair valuation loss on investments in FVOCI with recycling of cumulative gains and losses.

#### Revenue from Contracts with Customers

The Group primarily derives its real estate revenue from the sale of lots and condominium units. Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has generally concluded that it is the principal in its revenue arrangements.

The disclosures of significant accounting judgements, estimates and assumptions relating to revenue from contracts with customers are provided in Note 3.

#### Real estate sales

The Group derives its real estate revenue from sale of lots, house and lots, and condominium units. Revenue from the sale of these real estate projects under pre-completion stage are recognized over time during the construction period (or percentage of completion) since based on the terms and conditions of its contract with the buyers, the Group's performance does not create an asset with an alternative use and the Group has an enforceable right to payment for performance completed to date.

In measuring the progress of its performance obligation over time, the Group uses the input method. Input method recognizes revenue on the basis of the entity's efforts or inputs to the satisfaction of a performance obligation. Progress is measured based on actual resources consumed such as materials, labor hours expended and actual overhead incurred relative to the total expected inputs to the satisfaction of that performance obligation, or the total estimated development costs of the real estate project. The Group uses the costs accumulated by the accounting department to determine the actual resources used. Input method exclude the effects of any inputs that do not depict the entity's performance in transferring control of goods or services to the customer.

Estimated development costs of the real estate project include costs of land, land development, building costs, professional fees, depreciation of equipment directly used in the construction, payments for permits and licenses. Revisions in estimated development costs brought about by increases in projected costs in excess of the original budgeted amounts, form part of total project costs on a prospective basis.

Any excess of collections over the total of recognized installment contract receivables is included in the "contract liabilities" account in the liabilities section of the consolidated statement of financial position.

# Cost recognition

The Group recognizes costs relating to satisfied performance obligations as these are incurred taking into consideration the contract fulfillment assets such as land and connection fees. These include costs of land, land development costs, building costs, professional fees, depreciation, permits and licenses and capitalized borrowing costs. These costs are allocated to the saleable area, with the portion allocable to the sold area being recognized as costs of sales while the portion allocable to the unsold area being recognized as part of real estate inventories.

In addition, the Group recognizes as an asset only costs that give rise to resources that will be used in satisfying performance obligations in the future and that are expected to be recovered.

### Contract Balances

#### Receivables

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

#### Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional.

#### Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is

recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Group performs under the contract.

The contract liabilities also include payments received by the Group from the customers for which revenue recognition has not yet commenced.

#### Costs to obtain contract

The incremental costs of obtaining a contract with a customer are recognized as an asset if the Group expects to recover them. The Group has determined that commissions paid to brokers and marketing agents on the sale of pre-completed real estate units are deferred when recovery is reasonably expected and are charged to expense in the period in which the related revenue is recognized as earned. Commission expense is included in the "Cost of real estate sales and services" account in the consolidated statement of comprehensive income.

Costs incurred prior to obtaining contract with customer are not capitalized but are expensed as incurred.

#### Contract fulfillment assets

Contract fulfillment costs are divided into: (i) costs that give rise to an asset; and (ii) costs that are expensed as incurred. When determining the appropriate accounting treatment for such costs, the Group firstly considers any other applicable standards. If those standards preclude capitalization of a particular cost, then an asset is not recognized under PFRS 15.

If other standards are not applicable to contract fulfillment costs, the Group applies the following criteria which, if met, result in capitalization: (i) the costs directly relate to a contract or to a specifically identifiable anticipated contract; (ii) the costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and (iii) the costs are expected to be recovered. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recoverable.

The Group's contract fulfillment assets pertain to connection fees and land acquisition costs.

Amortization, de-recognition and impairment of contract fulfillment assets and capitalized costs to obtain a contract

The Group amortizes contract fulfillment assets and capitalized costs to obtain a contract to cost of sales over the expected construction period using percentage of completion following the pattern of real estate revenue recognition. The amortization is included within cost of sales.

A contract fulfillment asset or capitalized costs to obtain a contract is derecognized either when it is disposed of or when no further economic benefits are expected to flow from its use or disposal.

At each reporting date, the Group determines whether there is an indication that contract fulfillment asset or cost to obtain a contract maybe impaired. If such indication exists, the Group makes an estimate by comparing the carrying amount of the assets to the remaining amount of consideration that the Group expects to receive less the costs that relate to providing services under the relevant contract. In determining the estimated amount of consideration, the Group uses the same principles as it does to determine the contract transaction price, except that any constraints used to reduce the transaction price will be removed for the impairment test.

Where the relevant costs or specific performance obligations are demonstrating marginal profitability or other indicators of impairment, judgement is required in ascertaining whether or not the future economic benefits from these contracts are sufficient to recover these assets. In performing this impairment assessment, management is required to make an assessment of the costs to complete the contract. The ability to accurately forecast such costs involves estimates around cost savings to be achieved over time, anticipated profitability of the contract, as well as future performance against any contract-specific performance indicators that could trigger variable consideration, or service credits. Where a contract is anticipated to make a loss, these judgements are also relevant in determining whether or not an onerous contract provision is required and how this is to be measured.

### Other Revenue Recognition

#### Rental income

Rental income from noncancellable operating leases is recognized on a straight-line basis over the lease term. Rental income from cancellable operating leases is recognized based on terms of the lease contract.

#### Interest income

Interest is recognized as it accrues using the effective interest rate which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset.

#### Miscellaneous income

Miscellaneous income includes income from penalties earned from late payments of buyers. Forfeiture of collections and penalties for late payments are recognized based on the contractual terms of the agreement.

# General and administrative expenses

General and administrative expenses constitute costs of administering the business. These expenses are recognized as incurred and measured based on the amounts paid or payable.

# Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

### Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

#### Lease liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognized as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

## Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

#### Group as a lessor

Leases where the Group does not transfer substantially all the risks and benefits of ownership of the assets are classified as operating leases. In determining significant risks and benefits of ownership, the Group considers, among others, the significance of the lease term as compared with the EUL of the related asset. Rental income is recognized over the lease term on a straight-line basis, unless another systematic basis is more representative of the time pattern in which use benefit is derived.

# Lease modification

Lease modification is defined as a change in the scope of a lease, or the consideration for a lease, that was not part of the original terms and conditions of the lease (for example, adding or terminating the right to use one or more underlying assets, or extending or shortening the contractual lease term).

A lessor shall account for a modification to an operating lease as a new lease from the effective date of the modification, considering any prepaid or accrued lease payments relating to the original lease as part of the lease payments for the new lease. If a change in lease payments does not meet the definition of a lease modification that change would generally be accounted for as a negative variable lease payment. In the case of an operating lease, a lessor recognizes the effect of the rent concession by recognizing lower income from leases.

# **Borrowing Costs**

Borrowing costs incurred during the construction period on borrowings used to finance property development are capitalized as part of development costs (included in "Real estate held for sale and development" and "Property and equipment" accounts in the consolidated statement of financial position). Capitalization of borrowing costs commences when the activities to prepare the asset are in progress and expenditures and borrowing costs are being incurred. Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the asset for its intended use or sale are complete.

Capitalized borrowing cost is based on applicable weighted average borrowing rate for those coming from general borrowings and the actual borrowing costs eligible for capitalization for funds borrowed specifically.

### Pension Expense

The pension liability is the aggregate of the present value of the defined benefit obligation at the end of the reporting period. This method reflects services rendered by employees up to the date of valuation and incorporates assumptions concerning projected salaries.

The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method.

Defined benefit costs comprise the following:

- Service cost
- Net interest on the defined benefit liability
- Remeasurements of defined benefit liability

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in profit or loss. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Interest on the defined benefit liability is the change during the period in the defined benefit liability that arises from the passage of time which is determined by applying the discount rate based on government bonds to the defined benefit liability. Interest on the defined benefit liability is recognized as expense in profit or loss.

Remeasurements comprising actuarial gains and losses are recognized immediately in the consolidated statement of financial position with a corresponding debit or credit through other comprehensive income in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods.

#### Taxes

Current income tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that have been enacted or substantively enacted as at the reporting date.

### Deferred tax

Deferred tax is provided on all temporary differences, with certain exceptions, at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, with certain exceptions. Deferred tax assets are recognized for all deductible temporary differences, carryforward benefits of unused tax credits or unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilized. Deferred tax, however, is not recognized when it arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow all or part of the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rate that is expected to apply to the period when the asset is realized or the liability is settled based on tax rates and tax laws that have been enacted or substantively enacted as at the reporting date.

Deferred tax relating to items recognized outside of profit or loss is recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

# Earnings Per Share (EPS)

Basic EPS is computed by dividing net income for the period attributable to common stockholders by the weighted average number of common shares issued and outstanding during the period adjusted for any stock dividends issued. Diluted EPS is computed by dividing net income for the period attributable to common stockholders by the weighted average number of common shares issued and outstanding during the period after giving effect to assumed conversion of potential common shares. Basic and diluted EPS are adjusted to give retroactive effect to any stock dividends declared during the period.

### **Segment Reporting**

The Group's business is organized and managed according to nature of the products and services provided comprising of construction and real estate operations. Financial information on business segment is presented in Note 23.

# **Provisions**

Provisions are recognized when the Group has: (a) a present obligation (legal or constructive) as a result of a past event; (b) it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and (c) a reliable estimate can be made of the amount of the obligation. Where the Group expects a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimates.

### Contingencies

Contingent liabilities are not recognized in the consolidated financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but disclosed when an inflow of economic benefits is probable.

# Events After the Reporting Period

Post year-end events up to the date the consolidated financial statements were authorized for issue that provide additional information about the Group's position at the reporting date (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

# 3. Significant Accounting Judgments and Estimates

The preparation of the consolidated financial statements in accordance with PFRS Accounting Standards, requires management to make judgments and estimates that affect the amounts reported in the consolidated financial statements and accompanying notes. Future events may occur which can cause the assumptions used in arriving at those estimates to change. The effects of any changes in estimates will be reflected in the consolidated financial statements as they become reasonably determinable.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances

### **Judgments**

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the consolidated financial statements:

### Existence of a contract

The Group's primary document for a contract with a customer is a signed contract to sell. In cases wherein contract to sell are not signed by both parties, the combination of its other signed documentation such as reservation agreement, official receipts and buyer's computation sheets would contain all the criteria to qualify as a contract with customers under PFRS 15. In addition, part of the assessment process of the Group before revenue recognition is to assess the probability that the Group will collect the consideration to which it will be entitled in exchange for the real estate property that will be transferred to the customer. In evaluating whether collectability of an amount of consideration is probable, an entity considers the significance of the customer's initial payments in relation to the total contract price. Collectability is also assessed by considering factors such as past history of the customer, age and pricing of the property. Management regularly evaluates the historical cancellations and back-outs if it would still support its current threshold of customers' equity before commencing revenue recognition.

# Revenue recognition method and measure of progress

The Group concluded that revenue for real estate sales is to be recognized over time because (a) the Group's performance does not create an asset with an alternative use and; (b) the Group has an enforceable right for performance completed to date. The promised property is specifically identified in the contract and the contractual restriction on the Group's ability to direct the promised property for another use is substantive. This is because the property promised to the customer is not interchangeable with other properties without breaching the contract and without incurring significant costs that otherwise would not have been incurred in relation to that contract. In addition, under the current legal framework, the customer is contractually obliged to make payments to the developer up to the performance completed to date.

The Group has determined that input method used in measuring the progress of the performance obligation faithfully depicts the Group's performance in transferring control of real estate development to the customers.

# Impairment testing of financial assets

Definition of default and credit-impaired financial assets

The Group defines a financial instrument as in default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

Quantitative criteria - for installment contracts receivable, the customer receives a notice of cancellation and does not continue the payments.

#### **Qualitative** criteria

The customer meets unlikeliness to pay criteria, which indicates the customer is in significant financial difficulty. These are instances where: (a) the customer is experiencing financial difficulty or is insolvent; (b) the customer is in breach of financial covenant(s); (c) concessions have been granted by the Group, for economic or contractual reasons relating to the customer's financial difficulty; and (d) it is becoming probable that the customer will enter bankruptcy or other financial reorganization.

The criteria above have been applied to the financial instruments held by the Group and are consistent with the definition of default used for internal credit risk management purposes. The default definition has been applied consistently to model the Probability of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD) throughout the Group's expected loss calculation.

# Incorporation of forward-looking information

The Group incorporates forward-looking information into both its assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL.

To do this, the Group considers a range of relevant forward-looking macro-economic assumptions for the determination of unbiased general industry adjustments and any related specific industry adjustments that support the calculation of ECLs. Based on the Group's evaluation and assessment and after taking into consideration external actual and forecast information, the Group formulates a 'base case' view of the future direction of relevant economic variables as well as a representative range of other possible forecast scenarios. This process involves developing two or more additional economic scenarios and considering the relative probabilities of each outcome. External information includes economic data and forecasts published by governmental bodies, monetary authorities and selected private-sector and academic institutions.

The base case represents a most-likely outcome and is aligned with information used by the Group for other purposes such as strategic planning and budgeting. The other scenarios represent more optimistic and more pessimistic outcomes. Periodically, the Group carries out stress testing of more extreme shocks to calibrate its determination of these other representative scenarios.

The Group has identified and documented key drivers of credit risk and credit losses of each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macro-economic variables and credit risk and credit losses.

Distinction between real estate held for sale and development and investment properties

The Group determines whether a property will be classified as real estate inventories or investment properties. In making this judgment, the Group considers whether the property will be sold in the normal operating cycle (real estate held for sale and development). All other properties that are not yet determined to be sold in the normal operating cycle are classified as investment properties.

#### Impairment of nonfinancial assets

The Group assesses impairment on its nonfinancial assets (i.e., property and equipment, investment in an associate, investment properties and other assets) and considers the following important indicators:

- Significant changes in asset usage;
- Significant decline in assets' market value;
- Obsolescence or physical damage of an asset;
- Significant underperformance relative to expected historical or projected future operating results; and,
- Significant negative industry or economic trends.

If such indications are present and where the carrying amount of the asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Recoverable amounts are estimated for individual assets or, if it is not possible, for the cash-generating unit to which the asset belongs.

In determining the present value of estimated future cash flows expected to be generated from the continued use of the assets, the Group is required to make estimates and assumptions that may affect the carrying amount of the assets.

As of December 31, 2024 and 2023, carrying values follow:

	2024	2023
Property and equipment (Note 11)	₽945,173,024	₽790,070,038
Investment in an associate (Note 9)	259,757,100	228,348,543
Investment properties (Note 8)	603,926,799	470,516,508
Advances to contractors	66,987,046	67,263,652
Other assets (Note 10)	259,934,494	275,316,139

# Determination of lease term of contracts with renewal options - Group as a lessee

The Group has lease contracts that include extension options. The Group applies judgment in evaluating whether it is reasonably certain whether or not to exercise the option to renew the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise the renewal. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew (e.g., construction of significant leasehold improvements or significant customization to the leased asset).

The Group did not include the renewal period of its lease contracts since the renewal options are based on mutual agreement, thus not enforceable (see Note 21).

# Management's Use of Estimates

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed as follows:

### Revenue recognition

The Group's real estate sales is based on the percentage-of-completion method measured principally based on total actual cost of resources consumed such as materials, labor hours expended and actual overhead incurred over the total expected project development cost. Actual costs also include incurred costs but not yet billed which are estimated by the project engineers. Expected project development costs include costs of land, land development, building costs, professional fees, depreciation of equipment directly used in the construction, payments for permits and licenses. Revisions in estimated development costs brought about by increases in projected costs in excess of the original budgeted amounts, form part of total project costs on a prospective basis and is allocated between costs of sales and real estate inventories.

# Provision for expected credit losses of trade receivables

The Group uses vintage analysis approach to calculate ECLs for installment contracts receivables. The vintage analysis accounts for expected losses by calculating the cumulative loss rates of a given loan pool. It derives the probability of default from the historical data of a homogenous portfolio that share the same origination period. The information on the number of defaults during fixed time intervals of the accounts is utilized to create the PD model. It allows the evaluation of the loan activity from its origination period until the end of the contract period.

The assessment of the correlation between historically observed default rates, forecast economic conditions (inflation and interest rates) and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

For the years ended December 31, 2024 and 2023, the Group recognized provision for ECL amounting to ₱6.37 (nil in 2023). As of December 31, 2024 and 2023, the carrying value of receivables amounted to ₱174.98 million and ₱66.08 million, respectively (see Note 5).

## Evaluation of NRV of real estate held for sale and development

The Group reviews the NRV of real estate held for sale and development in the consolidated statement of financial position, and compares it with the cost, since assets should not be carried in excess of amounts expected to be realized from sale. Real estate held for sale and development are written down below cost when the estimated NRV is found to be lower than the cost.

NRV for completed real estate inventories is assessed with reference to market conditions and prices existing at the reporting date and is determined by the Group in light of recent market transactions and having taken suitable external advice. NRV in respect of inventory under construction is assessed with reference to market prices at the reporting date for similar completed property, less estimated costs to complete construction. In evaluating NRV, recent market conditions and current market prices have been considered.

The Group estimates that the NRV of real estate held for sale and development is greater than its cost. The carrying value of real estate held for sale and development amounted to ₱2,875.35 million and ₱3,233.98 million as of December 31, 2024 and 2023, respectively (see Note 7).

### Recognition of deferred tax assets

The Group reviews the carrying amounts of deferred tax assets at each reporting date and reduces deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. However, there is no assurance that the Group will generate sufficient taxable profit to allow all or part of deferred tax assets to be utilized. The Group looks at its projected performance in assessing the sufficiency of future taxable income on which deferred tax assets can be applied.

The Group recognized deferred tax assets amounting to ₱13.16 million and ₱49.68 million as of December 31, 2024 and 2023, respectively (see Note 19).

## Estimating pension cost and obligation

The determination of the Group's obligation and cost for pension is dependent on selection of certain assumptions used by actuaries in calculating such amounts. In determining the appropriate discount rate, management considers the interest rates of government bonds that are denominated in the currency in which the benefits will be paid, with extrapolated maturities corresponding to the expected duration of the defined benefit obligation. The salary increase rate was assumed taking into consideration the prevailing inflation rate and Group policy. The turnover rate was assumed based on the result of the most recent experience study of margins for fluctuations. While the Group believes that the assumptions are reasonable and appropriate, significant differences in the actual experience or significant changes in the assumptions may materially affect pension obligation.

The carrying value of pension liability amounted to ₱12.05 million and ₱11.17 million as of December 31, 2024 and 2023, respectively (see Note 16).

#### 4. Cash

This account consists of:

	2024	2023
Cash in banks	<b>₽</b> 150,936,530	₽28,409,155
Cash on hand	140,386	167,504
	<b>₽</b> 151,076,916	₽28,576,659

Cash in banks are stated at nominal amount and earn interest at the respective bank deposit rates of 0.050% to 0.125% and 0.125% to 0.250% in 2024 and 2023, respectively.

Interest income derived from cash in banks amounted to ₱52,403, ₱49,997, and ₱30,434 in 2024, 2023 and 2022, respectively (see Note 17).

#### 5. Receivables

This account consists of:

	2024	2023
Installment contracts receivable	₽147,289,605	₽28,090,784
Advances to homeowners' association	15,060,596	11,400,000
Accrued rent receivable (Note 21)	13,666,375	3,592,859
Interest receivable	5,350,433	1,008,517
Advances to associate (Note 14)	_	22,000,000
	181,367,009	66,092,160
Less allowance for expected credit losses	6,384,299	11,819
	174,982,710	66,080,341
Less noncurrent portion	77,864,518	13,062,117
Current portion	₽97,118,192	₽53,018,224

Installment contracts receivable are collectible in equal monthly principal installments with various terms up to a maximum of 10 years and are secured by the related property sold from real estate held for sale. The receivables bear interest rates ranging from 9.00% to 12.00% per annum computed on the diminishing balance of the principal in 2024 and 2023. Titles to the sold units are transferred to the buyers only upon full payment of the contract price.

The Group recognized interest income pertaining to its receivables amounting to ₱16.15 million, ₱0.83 million and ₱1.36 million in 2024, 2023 and 2022, respectively.

Accrued rent receivable pertains to the lease receivable from the rent of the Group's properties.

Advances to homeowners' association pertain to receivables from Goldendale, The Richdale Village, Primex Tower Condo and Stratosphere Condominium Homeowners' Association to fund its daily expenses. These are unsecured and have no fixed terms in relation to these advances.

Interest receivable pertains to the interest due from the customers with long-term interest-bearing amounts due to the Group.

Set out below is the movement of the allowance for expected credit losses:

#### 2024

	Installment Contract Receivable	Accrued rent receivable	Total
Balance at beginning of year	₽-	₽11,819	₽11,819
Provision for the year	6,372,480	_	6,372,480
Balance at end of year	₽6,372,480	₽11,819	₽6,384,299
2023			
	Installment		
	Contract	Accrued rent	
	Receivable	receivable	Total
Balance at beginning and end		_	
of year	₽-	₽11,819	₽11,819

#### 6. Contract Balances

### **Contract Liabilities**

Contract liabilities consist of collections from real estate customers which have not reached the equity threshold to qualify for revenue recognition and excess of collections over the recognized receivables based on percentage of completion.

The amount of revenue recognized in 2023 from amounts included in contract liabilities at the beginning of the year amounted to ₱41.53 million and ₱29.53 million in 2024. Contract liabilities as of December 31, 2024 and 2023 amounted to ₱12.00 million and ₱41.53 million.

#### Performance Obligation

Information about the Group's performance obligations are summarized below:

#### Real estate sales

The Group entered into contracts to sell with one identified performance obligation which is the sale of the real estate unit together with the services to transfer the title to the buyer upon full payment of contract price. The amount of consideration indicated in the contract to sell is fixed and has no variable consideration.

The sale of real estate unit may cover either the (a) lot; (b) house and lot (c) condominium unit and (d) office space and the Group concluded that there is one performance obligation in each of these contracts. The Group recognizes revenue from the sale of these real estate projects under pre-completed contract over time during the course of the construction.

Payment commences upon signing of the purchase application form and the consideration is payable in cash or under various financing schemes of up to maximum of 5 or 10 years. The financing scheme would include down payment of 20% to 30% of the contract price spread over a certain period (e.g., one to two years) at a fixed monthly payment with the remaining balance payable (a) in full at the end of the period either through cash or external financing; or (b) through in-house financing which ranges from two (2) to ten (10) years with fixed monthly payment. The amount due for collection under the amortization schedule for each of the customer does not necessarily coincide with the progress of construction, which results to either a contract asset or contract liability.

The performance obligation is satisfied upon delivery of the completed real estate unit. The Group provides one-year warranty to repair minor defects on the delivered house and lot, condominium unit and office space. This is assessed by the Group as a quality assurance warranty and not treated as a separate performance obligation.

# 7. Real Estate Held for Sale and Development

This account consists of:

	2024	2023
At cost:		
Residential, commercial and office spaces	<b>₽2,059,310,588</b>	₱2,235,782,889
Land and improvements	685,340,608	829,635,603
Subdivision land held for sale and development	130,697,945	144,661,976
Condominium units	· -	23,898,532
	₽2,875,349,141	₽3,233,979,000

Residential, commercial and office spaces include the construction costs incurred for Primex Tower. Total rental income earned from Primex Tower amounted to ₱23.69 million and ₱20.69 million in 2024 and 2023, respectively (nil in 2022).

Land and improvements pertain to properties held for future development.

Subdivision land held for sale and development includes properties that are being developed and have undergone development and are being sold in the normal operating cycle.

Condominium units consist of completed units within a property that is being sold in the Group's normal operating cycle.

The movements in the real estate held for sale and development as of December 31 follow:

Net Book Value	₱390,620,211	₽79,896,297	₽470,516,508

Investment properties consist of condominium units, commercial spaces and land held for operating lease to third parties. Total rental income arising from investment properties amounted to ₱169.92 million, ₱99.61 million and ₱39.17 million in 2024, 2023 and 2022, respectively.

Direct operating expenses incurred from rental operations of the Group amounted to ₱22.01 million in 2024 and ₱14.24 million and ₱14.66 million 2023 and 2022 (see Note 18).

The fair value of investment properties amounted to ₱1,761.5 million and ₱1,416.81 million as at December 31, 2024 and 2023, respectively. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The value of the investment properties was arrived at using the Market Data Approach. In this approach, the value of the investment properties is based on sales and listings of comparable property registered in the vicinity which is classified under Level 3 hierarchy. The Group has no restrictions on the realizability of its investment properties.

The significant unobservable inputs to valuation of investment properties ranges from  $\frac{2}{2}2,500$  to  $\frac{1}{2}195,000$  per sqm.

#### 9. Investment in an Associate

As of December 31, 2024 and 2023, the Group's investment in an associate represents its investment in PDC representing ownership interest of 42.86%. PDC is a corporation duly organized and existing under laws of the Republic of the Philippines. It is primarily engaged and carry on the business of real estate leasing and selling. The registered office address of PDC is at Ground Floor, Richbelt Terraces, 19 Annapolis Street, Greenhills, San Juan, Metro Manila, Philippines. PDC has no operation nor commenced the transaction of its business.

As at December 31, 2024 and 2023, the net carrying value of the Group's investment in PDC amounted to ₱259.76 million and ₱228.35 million, respectively. In 2024, the Group recorded additional investment in PDC, along with the related subscription payable amounting to ₱26.78 million, (nil in 2023). The additional investment in PDC did not change its ownership as the other stockholders have increased their investment equivalent to its related ownership. PDC reported net income amounting to ₱10.80 million from its sale of fair value through profit or loss investments. Accordingly, the Group recognized equity in net earnings amounting to ₱4.63 million (nil in 2023 and 2022).

As of December 31, 2024 and 2023, there was no restriction on the ability of the associate to transfer funds to the Group in the form of cash dividends or to repay advances made by the Group.

Below is the summarized financial information of PDC as of December 31, 2024 and 2023:

	2024	2023
Total Assets		
Current assets	₽12,597,332	₽15,956,551
Noncurrent assets	1,325,217,483	1,438,125,642
	₽1,337,814,815	₽1,454,082,193
Total liabilities	₽498,110,098	₽875,176,326
Equity	₽839,704,717	₽578,905,867
Net income	₽10,798,849	₽-

### 10. Other Assets

	2024	2023
Other current assets:		
Input VAT	<b>₽</b> 166,951,267	₱202,628,215
Creditable withholding tax	46,682,474	57,389,340
Prepaid taxes	37,524,578	2,944,245
Deferred charges	455,654	428,536
Prepaid insurance	426,579	737,684
Advances to employees	33,491	2,000
Others	1,059,436	1,059,436
	₽253,133,479	₽265,189,456
Other noncurrent assets:		
Deposits	₽6,631,355	₽8,519,125
Others	169,660	1,607,558
	₽6,801,015	₽10,126,683

Input VAT represents taxes imposed on the Group for the purchase of goods from its suppliers and availment of services from its contractors, as required by Philippine taxation laws and regulations. This will be used against future output VAT liabilities or will be claimed as tax credits.

Prepaid taxes pertain to taxes and licenses paid in advance by the Group.

Advances to employees represent advances for operational purposes and are collected through salary deduction.

Deposits consist of guarantee deposits and amounts paid to utility providers for service application.

Others include FVOCI investments in bonds amounting to ₱1.44 million. In 2024, the Group recognized unrealized valuation loss amounting to ₱1.44 million (nil in 2023).

In 2024, the Group reclassified the condominium units and certain areas in the subdivision land to property and equipment amounting to ₱39.27 million (nil in 2023) (see Note 7).

Borrowing costs capitalized and included in construction in progress under "Property and equipment", where activities necessary to prepare it for its intended use is ongoing amounted to ₱34.83 million, ₱30.12 and ₱22.09 million in 2024, 2023 and 2022 respectively (see Note 13).

The Group has no restrictions on its property and equipment and none of these have been pledged as security for its obligations.

### 12. Accounts and Other Payables

This account consists of:

	2024	2023
Accounts payable (Note 14)	₽388,384,994	₽345,364,967
Refundable deposits	127,565,949	160,666,964
Advance rent	21,105,499	18,765,725
Advances from stockholders (Note 14)	9,003,777	7,700,000
Advances from associate (Note 14)	3,000,000	60,832,560
Accrued expenses	1,095,559	1,143,048
Withholding tax payable	232,212	251,896
Others	6,158,515	6,591,659
	₽556,546,505	₽601,316,819

Accounts payable are amounts due to suppliers and contractors on development costs incurred on its real estate projects under development. These are noninterest bearing and are generally settled on a 30- to 60-day term.

Refundable deposits pertain to the sum of money that the lessee agrees to pay upon signing of lease contract which will be refunded at the end of the lease term. As of December 31, 2024, and 2023, the refundable deposits amounting to \$\mathbb{P}\$127.57 million and \$\mathbb{P}\$160.67 million, respectively, are recorded at fair value, which approximates its carrying amount due to the relatively short-term nature of these transactions.

Advance rent pertains to payments from the lessees for the rental of the Company's properties to be applied in the next period.

Accrued expenses include accruals of general and administrative expense and interest expenses and are normally settled on 15- to 60-day terms.

Other payables consist of amounts owed to the government for statutory payments such as Social Security System and PAG-IBIG contributions and withholding taxes. These are remitted on a monthly basis.

# 13. Long-term Loans Payable

The carrying amount of long-term loans is as follows:

	2024	2023
Principal balance at beginning of year	₽2,359,916,667	₱2,236,805,556
Availments	750,000,000	480,000,000
Payments	(471,379,630)	(356,888,889)
Principal balance at end of year	2,638,537,037	2,359,916,667
Unamortized discount	(13,184,346)	(11,536,823)
Carrying amount	2,625,352,691	2,348,379,844
Less: current portion of long-term loans	(362,144,367)	(579,015,803)
	₽2,263,208,324	₽1,769,364,041

The Group entered into loan agreements with local commercial banks as follows:

# **Primex Corporation**

- a. On March 4, 2019 and December 11, 2019, PC obtained a four-year and five-year long-term loan facilities from a local bank amounting to ₱95.00 million and ₱120.00 million, respectively which are payable on installment basis with floating interest rate of 5.50% to 6.25%. The proceeds of the loans will be used for working capital requirements. The principal amounts are payable in 47 equal monthly installments of ₱0.90 million and ₱1.11 million, respectively, commencing on April 3, 2020 and with a single payment on the remaining loan balance at end of the term. Total principal payments amounted to ₱125.42 million and ₱23.89 million in 2024 and 2023. Both of the loans are fully paid as of December 31, 2024.
- b. On December 20, 2022, and December 29, 2022, PC obtained short-term loan facilities from a local bank amounting to ₱55.00 million and ₱40.00 million to be used for working capital requirements. 50% of the principal amount is payable on the 5th and 6th month from date of borrowing. The remaining principal amount is payable in two equal monthly amortizations commencing on the 11th and 12th month. The loan is subject to floating interest rates of 5.75% and 4.88%.

These loans were rolled over on April 28, 2023 and May 22, 2023. These are five-year long-term loan facilities from a local bank amounting to ₱40.00 million and ₱55.00 million, respectively which are payable on installment basis with floating interest rate of 6%. The proceeds of the loans will be used for working capital requirements. The principal amounts are payable in 49 equal monthly installments of ₱0.37 million and ₱0.51 million, respectively, commencing on June 4, 2024 with a single payment on the remaining loan balance at end of the term. Total principal payments amount to ₱6.16 million in 2024. (nil in 2023).

- c. On May 4, 2023 and May 22, 2023, PC obtained a five-year long-term loan facilities from a local bank amounting to ₱25.00 million and ₱80.00 million, respectively which are payable on installment basis with floating interest rate of 6%. The proceeds of the loans will be used for working capital requirements. The principal amounts are payable in 49 equal monthly installments of ₱0.23 million and ₱0.74 million, respectively, commencing on June 4, 2024 and with a single payment on the remaining loan balance at end of the term. Total principal payments amount to ₱6.81 million in 2024 (nil in 2023).
- d. On December 17, 2024, and December 23, 2024, PC obtained a five-year long-term loan facilities from a local bank amounting to ₱155.00 million and ₱50.00 million, respectively which are payable on installment basis with floating interest rate of 6.00% and 5.87% respectively. The proceeds of the loans will be used for working capital requirements. The principal amounts are payable in 49 and 48 equal monthly installments of ₱1.44 million and ₱1.04 million, respectively, commencing on December 4, 2025, and December 16, 2026, respectively with a single payment on the remaining loan balance at end of the term of the latter. No principal payment was made for these loans in 2024.

## **Primex Realty Corporation**

- e. In 2019, PRC obtained long-term loan facilities amounting to ₱277.00 million and ₱135.00 million from a local bank with fixed and floating rates ranging from 5.50% to 5.88%, respectively to be used for the construction of Primex Tower and payment of dividends. The principal amounts are payable in 72 equal monthly amortizations commencing on November 23, 2022. Total principal payments amounted to ₱68.67 million in 2024 and 2023.
- f. In 2020, PRC obtained long-term loan facilities amounting to ₱20.00 million, ₱75.00 million and ₱6.66 million from a local bank with fixed and floating rates ranging from 4.38% to 5.88%, to be used for the construction of Primex Tower. The principal amounts are payable in 72 equal monthly amortizations commencing on November 23, 2022. Total principal payments amounted to ₱16.94 million in 2024 and 2023.
- g. In 2021, PRC obtained long-term loan facilities with total amount of ₱795.31 million from a local bank with floating rates of 4.38% to 5.88%, to be used for the construction of Primex Tower. The principal amounts are payable in 72 equal monthly amortizations commencing on November 23, 2022. Total principal payments amounted to ₱132.55 million in 2024 and 2023.
- h. In 2022, PRC obtained long-term loan facilities with total amount of ₱689.04 million from a local bank with floating rates of ranging from 4.38% to 5.88%, to be used for the construction of Primex Tower. The principal amounts are payable on 72 equal monthly amortizations commencing on November 23, 2022. Total principal payments amounted to ₱114.84 million in 2024 and 2023.
- i. In 2022, PRC obtained long-term loan facilities with total amount of ₱50.00 million from a local bank with floating rates ranging from 5.00% to 7.00%, to be used for the construction of Primex Tower. The principal amounts are payable on 84 equal monthly amortizations commencing on October 27, 2025. No principal payments made in 2024 and 2023.
- j. In 2023, PRC obtained long-term loan facilities with total amount of ₱290.00 million from a local bank with floating rates ranging from 6.5% to 7.00%, to be used for the construction of Primex Tower. The principal amounts are payable on 84 equal monthly amortizations commencing on October 27, 2025. No principal payment was made in 2024 and 2023.

- k. In 2023, PRC obtained long-term loan facilities with total amount of ₱85.00 million from a local bank with floating rates of 5.86% to 5.88%, to be used for the construction of Primex Tower. The principal amounts are payable on 48 equal monthly amortizations commencing on December 16, 2026. No principal payment was made in 2024 and 2023.
- 1. In 2024, PRC obtained long-term loan facilities with total amount of \$\frac{P}{4}15.00\$ million from a local bank with floating rates of 5.88%, to be used for the construction of Primex Tower. The principal amounts are payable on 48 equal monthly amortizations commencing on December 16, 2026. No principal payments was made in 2024.
- m. In 2024, PRC obtained long-term loan facilities with total amount of \$\mathbb{P}\$130.00 million from a local bank with floating rates of 7.00%, to be used for the construction of Primex Tower. The principal amounts are payable on 48 equal monthly amortizations commencing on October 27, 2025. No principal payments for these loans was made in 2024.

Movement in unamortized discount as of December 31, 2024 and 2023 follows:

Amortization	(3,984,933)	(4,008,546)
Ending balance	₽13,184,346	₽11,536,823

Interest expense capitalized and included under "Property and equipment" in the Group's statement of financial position amounted to ₱34.83 million, ₱30.12 million and ₱22.09 million in 2024, 2023 and 2022, respectively (see Note 11).

In 2024, 2023, and 2022 interests and other financing costs arising from the above bank loans as included under "Interest expense" in the consolidated statement of comprehensive income amounted to of P130.08 million, P18.80 million and P111.43 million, respectively.

Real estate held for sale and development with a carrying amount of P2,942.60 million and P3,003.26 million as of December 31, 2024 and 2023, respectively, were used as collateral to secure the bank loans described in (b), (c), (d), (e) and (f) above (see Note 7). There are no debt covenants from the above long-term loans payable.

# 14. Related Party Transactions

Parties are related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions and the parties are subject to common control. Related parties may be individuals or corporate entities.

The Group, in the regular conduct of business, has entered into transactions with related parties principally consisting of reimbursement of expenses and advances. There have been no guarantees provided or received for any related party receivables or payables.

### Terms and conditions of transactions with related parties

Related party balances at year-end are unsecured, interest-free and are expected to be settled once parties have followed through with the settlement. There have been no guarantees provided or received for any related party receivables or payables. Impairment assessment is undertaken each financial year through a review of the financial position of the related party and the market in which the related party operates. Except as otherwise indicated, the outstanding accounts with related parties shall be settled in cash.

There are no agreements between the Group and any of its directors and key officers on providing for benefits upon termination of employment, except for such benefits to which they may be entitled under the Group's retirement plan.

The Parent Company has an approval requirement such that material related party transaction shall be reviewed by the BOD for approval. Material RPTs are those transactions that meet the threshold value as approved by the BOD amounting to 10% or higher of the Group's total consolidated assets based on its latest audited financial statements. The BOD will approve all material related party transactions that cross the materiality threshold and write-off of material exposures to related parties, as well as any renewal or material changes in the terms and conditions of material related party transactions previously approved, including but not limited to changes in price.

# Compensation of Key Management Personnel

Salaries, including other short-term employee benefits and post-employment benefits of the Group's key management personnel amounted to ₱4.41 million, ₱4.28 million and ₱5.34 million for the years ended December 31, 2024, 2023 and 2022, respectively.

### 15. Equity

### Paid-in Capital

Details of the Parent Company's paid-in capital as of December 31 follow:

	2024	2023
Authorized shares	4,500,000,000	4,500,000,000
Par value per share	₽0.20	₽0.20
Issued shares	2,344,168,472	2,344,168,472
Outstanding shares	2,315,521,472	2,344,168,472

Rollforward analysis of the Parent Company's capital stock is as follows:

	2024		2023	
	Shares	Amount	Shares	Amount
Issued capital stock At beginning of year	2,344,168,472	₽468,833,695	2,344,168,472	₽468,833,695
Outstanding capital stock At the end of year	2,315,521,472	₽463,104,294	2,344,168,472	₽468,833,695

On August 10, 2001, the Parent Company launched its Initial Public Offering where a total of 200,000,000 common shares were offered at an offering price of ₱2.20 per share. The registration statement was approved on July 17, 2001 by SEC.

On February 5, 2013, a subscription agreement was entered into by the Parent Company and another third party corporation for an additional subscription of 17,000,000 shares of the Parent Company's common stock for a share price of ₱3.50 per share with the excess in par value amounting to ₱42.50 million recognized as additional paid-in capital. The Parent Company's subscription receivable amounting to ₱2.00 million was collected during 2014.

On November 24, 2015, the Parent Company's BOD approved the change in par value of the Parent Company's common shares from ₱1.00 per share to ₱0.20 per share. Following the approval, on November 25, 2015, the Parent Company's BOD approved the amendment of the Articles of Incorporation to reflect the change in par value of the authorized capital stock.

Subsequently, in a special stockholders' meeting held on January 29, 2016, the Parent Company secured the approval of the stockholders on the change in par value of capital stock from P1.00 per share to P0.20 per share and the amendment of the Articles of Incorporation. The SEC approved the change in par value of the Parent Company's capital stock on August 3, 2016.

On February 21, 2017, a subscription agreement was entered into by the Parent Company and third party corporations and an individual for an additional subscription of 45,000,000 shares of the Parent Company's common stock for a share price of \$\mathbb{P}4.00\$ per share with the excess in par value amounting to \$\mathbb{P}171.00\$ million recognized as additional paid-in capital.

On August 28, 2020, a subscription agreement was entered into by the Parent Company and PDC for an additional subscription of 220,036,054 shares of the Parent Company's common stock for a share price of ₱1.47 per share with the excess in par value amounting to ₱279.45 million recognized as additional paid-in capital. The subscribed shares were fully paid.

On November 6, 2020, a subscription agreement was entered into by the Parent Company and a third party for an additional subscription of 120,000,000 shares of the Parent Company's common stock for a share price of ₱1.47 per share with the excess in par value amounting to ₱152.40 million recognized as additional paid-in capital. The subscribed shares were fully paid.

On February 11, 2021, a subscription agreement was entered into by the Parent Company and a third party for an additional subscription of 342,465,753 shares of the Parent Company's common stock for a share price of \$\mathbb{P}\$1.46 per share with the excess in par value amounting to \$\mathbb{P}\$431.51 million recognized as additional paid-in capital. The subscribed shares were fully paid.

The Parent Company has 15 stockholders as of December 31, 2024 and 2023, respectively.

## **Retained Earnings**

Retained earnings include the accumulated equity in undistributed net earnings of the consolidated subsidiaries and associate amounting to ₱394.62 million and ₱368.82 million as of December 31, 2024 and 2023, respectively, which are not available for dividend declaration by the Parent Company until these are declared by the subsidiaries.

In accordance with the Revised SRC Rule 68, the Parent Company's retained earnings available for dividend declaration as of December 31, 2024 and 2023 amounted to ₱209.31 million and ₱210.82 million, respectively.

On July 5, 2022, the Parent Company's BOD approved the declaration of cash dividends amounting to ₱75.02 million with a date of record and payment of July 19, 2022 and August 10, 2022, respectively.

On July 21, 2023, Parent Company's BOD approved the declaration of cash dividends amounting to ₱0.0027 per share or ₱6.33 million with a date of record and payment of August 4, 2023 and August 30, 2023, respectively. The Group did not declare any cash dividends in 2024.

#### **Treasury Shares**

On December 26, 2024, the Parent Company repurchased a total of 28,647,000 shares of its common stock at an average price of ₱1.74 per share, resulting in a total cost of ₱49,796,160. As of December 31, 2024, the total number of treasury shares held by the Parent Company is 28,647,000 (nil in 2023).

# Other Equity Reserve

The Group's other equity reserve amounting to ₱39.82 million as of December 31, 2024 and 2023 pertain to the change in the relative interests of the controlling and non-controlling interests of the Group resulting from the acquisition of the Group's non-controlling interests in PRC.

### Capital Management

The primary objectives of the Group's capital management policies are to afford the financial flexibility to support its business initiatives and to maximize stakeholders value. The Group will manage its capital structure and make adjustments to it, in light of changes in economic condition. The Group's source of capital is its equity totaling to ₱2,047.66 million and ₱2,110.04 million as of December 31, 2024 and 2023, respectively.

No changes were made in the Group's capital management objectives, policies or processes during the years ended December 31, 2024 and 2023.

The Group is not subject to externally imposed capital requirements.

### 16. Retirement Plan

The Group has an unfunded, noncontributory defined benefit type of retirement plan covering substantially all of its employees. The benefits are based on the employees' years of service. The latest actuarial valuation report was issued for the year ended December 31, 2024.

Republic Act 7641, *The New Retirement Law*, requires a provision for retirement pay to qualified private sector employees in the absence of any retirement plan in the entity, provided however that the employee's retirement benefits under any collective bargaining and other agreements shall not be less than those provided under the law. The law does not require minimum funding of the plan. The Group's retirement plan meets the minimum retirement benefit specified by the law.

The components of retirement expense included under general and administrative expenses in the consolidated statements of comprehensive income follow:

	2024	2023	2022
Current service cost	₽225,433	₽199,430	₽234,499
Interest cost	678,443	668,382	423,798
Total retirement expense (Note 18)	₽903,876	₽867,812	₽658,297

The amounts recognized in the consolidated statements of financial position for the pension liability represent the present value of defined benefit obligation as of reporting date.

Changes in present value of the defined benefit obligation are as follow:

	2024	2023
Balance at beginning of year	₽11,166,744	₽9,617,221
Current service cost	225,433	199,430
Interest cost	678,443	668,382
Remeasurement loss (gain) arising from:		
Changes in financial assumptions	(16,669)	263,501
Experience adjustments	(879)	418,210
Balance at end of year	₽12,053,072	₽11,166,744

The average duration of the defined benefit obligation at the end of the reporting period is 17 years during 2024 and 2023.

The principal assumptions used to determine retirement benefits for the Group for the years ended December 31 are as follows:

	2024	2023
Discount rate	6.10%	6.09%
Salary increase rate	5.00%	5.00%

The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption on the defined benefit obligation (DBO) as of December 31, assuming all other assumptions were held constant.

It should be noted that the changes assumed to be reasonably possible at the valuation date are open to subjectivity, and do not consider more complex scenarios in which changes other than those assumed may be deemed to be more reasonable.

		Effect on DBO		
	Increase (decrease)	2024	2023	
Discount rate	1.00%	( <del>₽</del> 312,540)	(₱291,774)	
	(1.00%)	454,046	415,300	
Rate of salary increase	1.00%	456,257	416,823	
	(1.00%)	(352,559)	(330,464)	

The maturity analysis of the undiscounted benefit payments as of December 31 follows:

	2024	2023
More than 1 year to 5 years	<b>₽10,077,074</b>	₱9,721,364
More than 5 to 10 years	3,571,343	3,377,896
More than 10 to 15 years	16,388,731	15,582,574

Below shows the remeasurement loss (gain) on defined benefit obligation recognized in OCI:

	2024	2023
Recognized in OCI		
Remeasurement loss (gain) on defined benefit		
obligation (Note 16)	<b>₽17,548</b>	(₱681,711)
Income tax effect (Note 19)	(4,387)	170,428
Balance at end of year	₽13,161	(₱511,283)

# 17. Miscellaneous Income

This account consists of:

	2024	2023	2022
Interest income from banks (Note 4)	₽52,403	₽49,997	₽30,434
Gain on cancellation of sales	_	_	7,279,765
Others	8,338,999	10,697,620	6,874,638
	₽8,391,402	₽10,747,617	₽14,184,837

Others pertain to income penalties earned from late payments of buyers for the scheduled installment contracts receivable payments as well as income derived from deposits resulting to forfeitures of potential real estate sales.

# 18. Costs and Expenses

Cost of real estate sales and services consist of:

	2024	2023	2022
Cost of real estate sales (Note 7)	₽69,748,563	₽35,196,125	₽24,723,982
Cost of rental (Note 8)	22,013,826	14,242,620	14,664,232
	₽91,762,389	₽49,438,745	₽39,388,214

General and administrative expenses consist of:

	2024	2023	2022
Light, water and dues	₽28,412,122	₽10,717,384	₽19,460,796
Taxes and licenses	19,127,496	15,202,485	15,162,968
Depreciation and amortization (Note 11)	11,660,780	5,687,562	5,519,301
Salaries, wages and employee benefits	11,054,736	10,389,013	9,561,079
Repairs and maintenance	9,318,823	12,814,483	6,895,914
Provision for expected credit losses (Note 5)	6,372,480	_	_
Insurance	4,492,533	2,005,373	733,790
Security, messengerial and janitorial services	1,647,804	2,236,226	2,146,138
Rent expense (Note 21)	1,569,900	470,284	851,400
Commission	1,219,922	1,667,894	1,714,573
Professional fees	1,154,857	1,187,798	1,044,269
Gas and oil	935,100	1,092,347	976,245
Retirement (Note 16)	903,876	867,812	658,297
Communication and transportation	354,011	330,578	569,155
Entertainment, amusement and recreation	75,788	427,941	533,042
Miscellaneous	2,620,197	5,245,584	5,142,854
	<b>₽100,920,425</b>	₽70,342,764	₽70,969,821

Miscellaneous pertains to expenses incurred for office supplies, uniforms of employees and out-of-pocket expenses.

# 19. Income Taxes

Provision for income tax consists of:

	2024	2023	2022
Current	<b>₽</b> 40,058,620	₽3,223,686	₽8,066,257
Deferred	50,084,298	28,409,314	3,138,518
Final	15,645	9,390	6,087
	₽90,158,563	₽31,642,390	₽11,210,862

The components of net deferred tax assets follow:

# 20. Earnings Per Share

Earnings per share amounts were computed as follows:

		2024	2023	2022
a.	Net income	₽116,436,254	₽94,795,368	₽33,631,668
b.	Weighted average number of			
	outstanding common shares	2,339,547,988	2,344,168,472	2,344,168,472
c.	Basic/diluted earnings per share (a/b)	₽0.0498	₽0.0404	₽0.0143

As of December 31, 2024, 2023, and 2022, the Group has no potentially dilutive common shares.

#### 21. Lease Commitments

# Operating Leases - Group as Lessor

The Group entered into lease agreements covering its parcels of land under real estate held for sale and development and investment properties to third parties. The leases are renewable under certain terms and conditions. The terms of the leases range from one (1) to ten (10) years. Accrued rent receivable amounted to ₱13.67 million and ₱3.59 million as of December 31, 2024 and 2023, respectively (see Note 5).

As of December 31, 2024, and 2023, the future minimum lease receivables under noncancelable operating leases follow:

	2024	2023
Within one year	₽128,400,293	₽107,476,121
After one year but not more than five years	225,876,301	371,286,133
More than five years	34,655,510	48,443,643
	₽388,932,104	₽527,205,897

In addition, the Group has transactions with an affiliate in which the latter allowed the Group to lease out the properties it owns, collect property rentals and assume all expenses and liabilities with regard to the undertaking at no cost to the Group. These transactions are recorded under "Rental income" account in profit or loss. Rental income earned from this transaction amounted to ₱4.68 million, ₱6.83 million and ₱9.57 million in 2024, 2023 and 2022, respectively.

In 2022, the Group granted rent concessions to its tenants which were affected by the community quarantine imposed by the government amounting to \$\mathbb{P}6.87\$ million (nil in 2024 and 2023). These rent concessions did not qualify as a lease modification, thus, were accounted for as a variable lease payment and reported as reduction of lease income in 2022.

# Leases - Group as Lessee

In 2018, the Group entered into an operating lease agreement with Springdale Trading Corp. for the lease of a commercial space used as the Group's showroom and for subleasing purposes. The contract runs for a period of five (5) years and is renewable annually subject to mutual agreement by both parties. Security deposits relating to this contract as of December 31, 2024 and 2023 amounted to ₱0.74 million (see Note 10). The lease was renewed for another five (5) years starting July 1, 2023 to June 30, 2028.

On May 1, 2019, the Group entered into another operating lease agreement with Philippine Union Realty Development Corporation for a period of two (2) years covering a commercial space to be used as the Group's showroom. The lease was renewed for a year starting May 1, 2021 and renewed until December 31, 2022. The lease was then subsequently renewed for another three (3) years starting January 1, 2024 until December 31, 2026. Security deposits relating to this contract as of December 31, 2024 and 2023 amounted to \$\mathbb{P}0.15\$ million (see Note 10).

In 2024, the Group entered into another operating lease agreement with a third party for the lease of additional space for subleasing purposes, as needed.

The following are the amounts recognized in the consolidated statements of comprehensive income:

	2024	2023	2022
Depreciation of right-of-use assets (Note 11)	₽5,814,157	₽4,010,850	₽3,720,205
Interest expense on lease liability	1,447,350	675,459	348,373
Short-term lease (Note 18)	1,569,900	470,284	851,400
Total	₽8,831,407	₽5,156,593	₽4,919,978

The movements in the lease liabilities as at December 31, 2024 and 2023 are presented below:

	2024	2023
Balance as at January 1	₽16,619,464	₽2,605,541
Additions	5,806,019	18,407,301
Interest expense	1,447,351	675,459
Payments	(5,068,837)	(5,068,837)
As at December 31	18,803,997	16,619,464
Less current portion	4,969,354	3,334,859
Noncurrent portion	₽13,834,643	₽13,284,605

Shown below is the maturity analysis of the undiscounted lease payments:

	2024	2023
Less than one year	₽6,104,753	₽4,376,360
After one year but not more than five years	15,073,237	15,052,521
	₽21,177,990	₱19,428,881

#### 22. Financial Instruments

### Fair Value Information

The fair values of cash, receivables (except installment contracts receivables), accounts payable, accrued expenses, advances from related parties, refundable deposits and short-term loans payable approximate their carrying amounts due to relatively short-term nature of these financial instruments.

Installment contracts receivable - The fair values are based on the discounted value of future cash flows using the applicable rates for similar types of instruments. As of December 31, 2024 and 2023, the carrying value approximates the fair value.

Long-term loans payable - variable-rate loans that reprice monthly, the carrying value approximates the fair value because of recent and regular repricing based on current market rates.

#### Fair Value Hierarchy

The Group categorized installments contracts receivable under Level 3 as of December 31, 2024 and 2023. The fair value of this financial instrument was determined by discounting future cash flows using the effective interest rates. Increase (decrease) in the discount rate would result in a (lower) higher fair value, respectively.

The Group categorized long-term loans classified as other financial liabilities under Level 3 as of December 31, 2024 and 2023. The fair value of this financial instrument was determined by discounting future cash flows using the effective interest rates. Increase (decrease) in the discount rate would result in a lower (higher) fair value, respectively.

There have been no reclassifications between Levels 1, 2, and 3 categories in 2024 and 2023.

### Financial Risk Management Objectives and Policies

The Group has various financial instruments such as loans and receivables and other financial liabilities which arise directly from the conduct of its operations. The main risks arising from the Group's financial instruments are credit risk and liquidity risk.

The Group reviews and approves policies for managing risks which are summarized below:

Exposures to credit and liquidity risks arise in the normal course of the Group's business activities. The main objectives of the Group's financial risk management are as follows:

- to identify and monitor such risks on an ongoing basis;
- to minimize and mitigate such risks; and
- to provide a degree of certainty about costs.

#### Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Group's credit risk is primarily attributable to its installment contracts receivable and interest receivable. The Group manages its credit risk by conducting credit reviews and analysis of receivables on a continuous basis. The Group also undertakes supplemental credit review procedures for certain payment structures. In addition, the Group's credit risk is minimized since the contract to sell provides the Group the right to rescind the sale, offer the same property to other parties in case of customer's default and the title of the property passes to the buyer only after the full payment of the receivable.

Financial assets comprise cash in bank and receivables. The Group adheres to fixed limits and guidelines in its dealings with counterparty banks and its investments in financial instruments. Given the high credit standing of its accredited counterparty banks, management does not expect any of these financial institutions to fail in meeting their obligations. The Group's exposure to credit risk from cash in bank and receivables arise from the default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

The aging analysis of receivables presented per class as of December 31 follows:

# **2024**

	₽56,680,546	₽37,808,950	₽11,819	₽94,501,315

The Group considers the probability of default upon initial recognition of financial asset and assesses whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period.

Credit risk from balances with banks is managed in accordance with the Group's policy. The Group holds cash in banks that have good reputation and low probability of insolvency. These are considered to be low credit risk investments.

The Group's allowance for expected credit losses amounted to P6.38 million and P0.01 million as of December 31, 2024 and 2023, respectively.

#### Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. Liquidity risk may result from either the inability to sell financial assets quickly at their fair values; or counterparty failing on repayment of a contractual obligation; or inability to generate cash inflows as anticipated.

### Credit line

The Group has a total available credit line up to ₱637.00 million and ₱984.00 million with various local banks as of December 31, 2024 and 2023, respectively.

The Group monitors its cash flow position, debt maturity profile and overall liquidity position in assessing its exposure to liquidity risk. The Group maintains a level of cash deemed sufficient to finance operations and to mitigate the effects of fluctuation in cash flows. In the event that there is a need in meeting its obligations, its stockholders will provide the necessary financial support in the funding requirements of the Group as they fall due.

Overall, the Group's funding arrangements are designed to keep an appropriate balance between equity and debt, to give financing flexibility while continuously enhancing the Group's businesses.

The tables below summarize the maturity profile of the Group's financial assets and liabilities as of December 31 based on the remaining contractual maturities and undiscounted contractual cash flows:

### Interest rate risk

Interest rate risk is the risk that changes in the market interest rates will reduce the Group's current or future earnings and/or economic value. The Group's interest rate risk management policy centers on reducing the overall interest expense and exposure to changes in interest rates. Changes in market interest rates relate primarily to the Group's interest-bearing debt obligations with floating interest rates or rates subject to repricing as it can cause a change in the amount of interest payments.

The Group has interest-bearing loans with floating interest rate subject to repricing amounting to ₱2,638.54 million and ₱2,359.92 million as of December 31, 2024 and 2023, respectively.

The table below demonstrates the sensitivity of the Group's profit before tax and equity to a reasonably possible change in interest rates on December 31, 2024 and 2023, with all variables held constant, (through the impact on floating rate borrowings):

	income tax Increase (decrease)			
	+ 100 basis	- 100 basis		
Change in basis points	points	points		
2024	( <del>P</del> 26,256,774)	₽ 26,256,774		
2023	(23,586,043)	23,586,043		

The assumed change in rate is based on the currently observable market environment. There is no other impact on the Group's equity other than those already affecting the net income.

# 23. Segment Information

The industry segments where the Group operates are as follows:

Real estate - sale of high-end and upper middle-income residential lots and units.

Rent - income from leasing of the Group's investment properties.

The Group only reports revenue line item for this segmentation. Assets and liabilities and cost and expenses are shared together by these two segments and, as such, cannot be reliably separated.

The significant information on the reportable segments is as follows:

	2024	2023	2022
REVENUE			
Real estate sales	₽303,349,985	₱126,983,373	₱98,932,120

#### INDEPENDENT AUDITOR'S REPORT ON SUPPLEMENTARY SCHEDULES

The Board of Directors and Stockholders Primex Corporation Ground Floor, Richbelt Terraces 19 Annapolis Street, Greenhills San Juan, Metro Manila

We have audited in accordance with Philippine Standards on Auditing, the consolidated financial statements of Primex Corporation and its subsidiaries (the Group) as at December 31, 2024 and 2023, and for each of the three years in the period ended December 31, 2024, and have issued our report thereon dated April 30, 2025. Our audits were made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The schedules listed in the Index to the Consolidated Financial Statements and Supplementary Schedules are the responsibility of the Group's management. These schedules are presented for purposes of complying with the Revised Securities Regulation Code Rule 68 and are not part of the basic consolidated financial statements. These schedules have been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements and, in our opinion, fairly state, in all material respects, the financial information required to be set forth therein in relation to the basic consolidated financial statements taken as a whole.

#### INDEPENDENT AUDITOR'S REPORT ON SUPPLEMENTARY SCHEDULE OF COMPONENTS OF FINANCIAL SOUNDNESS INDICATORS

The Board of Directors and Stockholders Primex Corporation Ground Floor, Richbelt Terraces 19 Annapolis Street, Greenhills San Juan, Metro Manila

We have audited in accordance with Philippine Standards on Auditing, the consolidated financial statements of Primex Corporation and its subsidiaries (the Group) as at December 31, 2024 and 2023 and for each of the three years in the period ended December 31, 2024 and have issued our report thereon dated April 30, 2025. Our audits were made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The Supplementary Schedule of Components of Financial Soundness Indicators, including their definitions, formulas, calculation, and their appropriateness or usefulness to the intended users, are the responsibility of the Group's management. These financial soundness indicators are not measures of operating performance defined by Philippine Financial Reporting Standards (PFRS) Accounting Standards, and may not be comparable to similarly titled measures presented by other companies. This schedule is presented for the purpose of complying with the Revised Securities Regulation Code Rule 68 issued by the Securities and Exchange Commission and is not a required part of the basic consolidated financial statements prepared in accordance with PFRS Accounting Standards. The components of these financial soundness indicators have been traced to the Group's consolidated financial statements as at December 31, 2024, and 2023 and for each of the three years in the period ended December 31, 2024 and no material exceptions were noted.

# MAP SHOWING THE RELATIONSHIPS BETWEEN AND AMONG THE COMPANIES IN THE GROUP, ITS ULTIMATE GROUP AND CO SUBSIDIARIES

FOR THE YEAR ENDED DECEMBER 31, 2024

### FINANCIAL SOUNDNESS INDICATORS FOR THE YEAR ENDED DECEMBER 31, 2024

### Financial Soundness Indicator

Below are the financial ratios that are relevant to the Group for the years ended December 31, 2024 and 2023:

Financial ratios	Formula		2024	2023
Current ratio	Current assets/ Current liabilities		3.58:1	2.98:1
	Current assets	₽3,443,664,774		
	Divide by: Current liabilities	962,441,476		
	Current ratio	3.58		
Acid test ratio	Quick assets/Current liabilities (quick assets	include cash and current	0.33:1	0.12:1
	receivables)			
	Current assets	₱3,443,664,774		
	Less: Real estate held for sale	2,875,349,141		
	Other current assets	253,133,479		
	Quick assets	315,182,154		
	Divide by: Current liabilities	962,441,476		
	Acid test ratio	0.33		
Solvency ratio	EBITDA/Total liabilities (Total liabilities inc term liabilities)	0.11:1	0.05:1	
	Net income	₽116,436,254		
	Add: Interest expense	131,527,410		
	Income taxes	90,158,563		
	Depreciation and amortization	33,674,604		
	EBITDA	371,796,831		
	Divide by: Total liabilities	3,292,998,087		
	Solvency ratio	0.11		
Debt-to-equity ratio	Total liabilities/Total equity		1.61:1	1.45:1
	Total liabilities	₽3,292,998,087		
	Divide by: Total equity	2,047,661,758		
	Debt-to-equity ratio	1.61		

Financial ratios	Formula	2024	2023	
Asset-to-equity			2.61:1	2.45:1
ratio	Total assets/Total equity			
	Total assets	₽5,340,659,845		
	Dived by: Total equity	2,047,661,758		
	Asset-to-equity ratio	2.61		
Interest rate coverage ratio	EBITDA/Interest expense		2.13:1	1.10:
	Net Income	₽116,436,254		
	Add: Interest expense	131,527,410		
	Income taxes	90,158,563		
	Depreciation and amortization	33,674,604		
	EBITDA	371,796,831		
	Divide by: Interest expense (including			
_	capitalized portion)	166,358,018		
	Interest rate coverage ratio	2.23		
Return on assets	Net income/Average total assets		2.22%	1.90%
	Net income	₽116,436,254		
	Divide by: Average total assets	5,251,547,221		
	Return on assets	2.22%		
Return on equity	Net income/Average total equity		5.60%	6.00%
	Net income	₽116,436,254		
	Divide by: Average total equity	2,078,850,994		
	Return on equity	5.60%		
Net profit margin	Net income /Total revenue		21.94%	35.689
	Net income	₽116,436,254		
	Divide by: Total revenue	530,805,041		
	Net profit margin	21.94%
